

The following matters are the subject of this public notice by the Ohio Environmental Protection Agency. The complete public notice, including any additional instructions for submitting comments, requesting information, a public hearing, or filing an appeal may be obtained at:
<http://www.epa.ohio.gov/actions.aspx> or Hearing Clerk, Ohio EPA, 50 W. Town St. P.O. Box 1049, Columbus, Ohio 43216. Ph: 614-644-3037 email: HCLerk@epa.ohio.gov

Draft Administrative Modification of Permit-To-Install

FERRO CORPORATION - CLEVELAND FRIT PLANT
4150 East 56th Street, Cleveland, OH 44101-1550
ID #: P0120646
Date of Action: 05/09/2016
Permit Desc: PTI administrative modification to include additional Preventive Maintenance Plan (PMP) terms and conditions for the 220 lb/cycle electric glass melters (P064 - P069) for lead emissions to achieve State Implementation Plan (SIP) approval. The permit and complete instructions for requesting information or submitting comments may be obtained at: <http://epa.ohio.gov/dapc/permitsonline.aspx> by entering the ID # or: David Hearne, Cleveland Division of Air Quality, 2nd Floor 75 Erieview Plaza, Cleveland, OH 44114. Ph: (216)664-2297

Draft Administrative Modification of Permit-To-Install

FERRO CORPORATION - CLEVELAND FRIT PLANT
4150 East 56th Street, Cleveland, OH 44101-1550
ID #: P0120647
Date of Action: 05/09/2016
Permit Desc: PTI administrative modification to include additional Preventive Maintenance Plan (PMP) terms and conditions for emissions unit P071 (alcohol milling expansion) for lead emissions to achieve State Implementation Plan (SIP) approval. The permit and complete instructions for requesting information or submitting comments may be obtained at: <http://epa.ohio.gov/dapc/permitsonline.aspx> by entering the ID # or: David Hearne, Cleveland Division of Air Quality, 2nd Floor 75 Erieview Plaza, Cleveland, OH 44114. Public Notice
Ohio Environmental Protection Agency
Redesignation and Maintenance Plan for the
Partial Cuyahoga County, OH Lead Nonattainment Area

Notice is hereby given that the Director of the Ohio EPA is requesting that the United States Environmental Protection Agency (U.S. EPA) revise the current air quality designation for the Partial Cuyahoga County nonattainment area, to attainment with respect to the 2008 lead national ambient air quality standard (NAAQS). Air quality monitoring data collected between 2012 and 2014 in the area demonstrate attainment of the NAAQS and there is evidence that the improved air quality is due to permanent, enforceable emission reductions. In addition, existing requirements are sufficient to

maintain the 2008 lead standard in this area at least ten years into the future.

Ohio EPA's analysis indicates current controls and emission limitations established for the Ferro Corporation, the only lead emitting source in the nonattainment area, along with projected future emissions, demonstrate the ability to maintain the NAAQS in the partial Cuyahoga County area in the future. In addition, Ferro Corporation has implemented a Preventative Maintenance Plan (PMP) and specified elements of that PMP are being incorporated into Ohio's SIP as a part of a federally enforceable permit-to-install also available for public comment under a concurrent action. As part of an acceptable maintenance plan, Ohio EPA is required to develop a contingency plan to provide for additional emission reductions if a violation of the NAAQS is monitored after the area has been redesignated. The plan which Ohio EPA is proposing to USEPA as part of this redesignation contains reductions which will help alleviate the ambient problem until a revised SIP can be developed.

The State of Ohio proposes to:

1. Request the U.S. EPA redesignate the partial Cuyahoga County area to attainment with respect to the 2008 lead NAAQS and revise the maintenance plan. This request will document that existing enforceable control measures are responsible for the observed improvement in air quality.
2. Designate existing controls as sufficient to maintain the NAAQS into the future.
3. Commit to the proposed contingency plan.

These actions must be noticed to allow public comment and to satisfy U.S. EPA requirements for public involvement in SIP related activities. This notice addresses Ohio EPA's reliance on the emission projections and current controls as evidence of attainment and maintenance and the commitment to institute contingency measures if ambient exceedances or violations trigger the contingency plan requirements. Written comments will be received on or before 06/14/2016 at jennifer.vanvlerah@epa.ohio.gov or Jennifer Van Vlerah Ohio EPA-DAPC, P.O. Box 1049, Columbus, Ohio 43216-1049.

Pursuant to Section 119.03 of the Ohio Revised Code, a public hearing on this redesignation request will be conducted on 06/14/2016 at 3:30PM, at the Cleveland Public Library Fleet Branch, 7224 Broadway Ave., Cleveland, OH 44105.

All interested persons are entitled to attend or be represented at the hearings and give written or oral comments on these changes. All oral comments presented at the hearing, and all written statements submitted at the hearing or to the above address by the close of business on 06/14/2016 will be considered by Ohio EPA prior to final action on this redesignation. Written statements submitted after 06/14/2016 may be considered as time and circumstances permit, but will not be part of the official record of the hearing.

This redesignation and maintenance request is available on Ohio EPA DAPC's Web page for electronic downloading at:
