Parent’s and Child Health Questionnaire

Parent's Questionnaire
Air Pollution and Pediatric Health Impact Study

Kevin Crist, Ph.D.
Associate Professor, School of Health Sciences
Ohio University
Athens, Ohio
A Note from Dr. Crist

Thank you so much for helping us with this project. You are providing information that will help the Ohio Environmental Protection Agency and others make decisions about air pollution levels.

The answers that you provide in this questionnaire will not be connected to your child in any way. All information will be studied and reported as group information only, without identification. By completing this questionnaire, you are giving us permission to analyze your responses along with the responses of the parents of the other children at school.

Please answer every question carefully and accurately. If you have trouble answering any questions or need help completing the questionnaire, please contact the school principal, who will then contact me. I will arrange for one of my co-workers to get back to you to provide assistance.

Every child who turns in a completed questionnaire will receive a small gift as a sign of our appreciation.
PARENT'S QUESTIONNAIRE

INSTRUCTIONS:

1. This booklet asks about your child's health and well-being. Your individual answers will not be shared with anyone.

2. If choose not to participate it will not affect your child's grades.

COMMENTS: Is there anything else that you think is important for us to know about your child's health or other conditions to which your child is exposed?

Date ______________________
Thank you for completing the questionnaire.

Please fill out the card below with your child's name and the name of your child's teacher. At school, the card will be removed so that your child's name will not be on this form.

Your child should now return the entire questionnaire to his/her classroom teacher.

Parents who do not return the questionnaire will be contacted at a later date.
