

Public Notice
Availability of Draft Amended Rules for Comment
OAC Chapter 3745-114, "Toxic Air Contaminants"

Please note that in accordance with Ohio Revised Code (ORC) 119.032 (5-year rule review), the Ohio Environmental Protection Agency, Division of Air Pollution Control (DAPC) has reviewed the rule contained in Ohio Administrative Code (OAC) Chapter 3745-114, "Toxic Air Contaminants." Our review indicates that this rule remains necessary and is in need of amendments.

The rule in Ohio Administrative Code (OAC) Chapter 3745-114 contains a list compounds which, when emitted by a facility, may be cause for the director of Ohio EPA to require a permit-to-install under OAC chapter 3745-31. Pursuant to a court decision by the 10th appellate district and the requirements of ORC 119.032, Ohio EPA has reviewed OAC rule 3745-114-01 and finds the need to add compounds to the list of toxic air contaminants contained in the rule.

As part of the rulemaking process, Ohio EPA is required to prepare and submit a Business Impact Analysis (BIA) form to Ohio's Common Sense Initiative (CSI) Office. Ohio EPA is also making this form available at this time for public review and comment along with the amended rule language.

This rule and the BIA document are available electronically for review at: <http://epa.ohio.gov/dapc/regs/regs.aspx>. See the information under the drafts and notices for OAC Chapter 3745-114. We request that you provide us with any comments you may have by **Friday, September 19, 2014**.

Please submit your comments or suggestions to the following addresses. Persons submitting comments electronically are encouraged to follow-up with a hard copy via regular mail:
