

**Public Notice – Request for Comment**  
**Draft Five-Year Rule Review of Ohio Administrative Code (OAC) Rules**  
**OAC Chapter 3745-20, “Asbestos Emission Control”**

Notice is hereby given that in accordance with Ohio Revised Code (ORC) 106.03 and 106.031 (5-year rule review), the Ohio Environmental Protection Agency, Division of Air Pollution Control (DAPC) has reviewed the rules contained in Ohio Administrative Code (OAC) Chapter 3745-20. The rules in this chapter set limits, testing, reporting and recordkeeping requirements for emissions of asbestos fibers from sources in the state of Ohio.

Upon review, Ohio EPA has determined that some changes are needed and that all rules in the chapter remain necessary. Ohio EPA is making certain minor changes to more closely align the rules with the federal requirements, plus minor changes are being made throughout the chapter for clarification, to correct typographical errors and to bring the rules in line with LSC and agency formatting standards.

As part of the rule-making process, DAPC is required by Section 121.39 of the Ohio Revised Code to consult with organizations that represent political subdivisions, environmental interests, business interests, and others affected by the rules. The DAPC is offering your organization the opportunity to comment on this rule before the division formally proposes them.

These rules and supporting documentation including a draft of the Business Impact Analysis (BIA) document are available electronically for review at: <http://epa.ohio.gov/dapc/regs/regs.aspx>. See the information under “Interested Party Review” tab for OAC Chapter 3745-20. We request that you provide us with any comments you may have to the draft rules and draft BIA document by **Friday, February 24, 2017**.

Please submit your comments or suggestions to the following addresses. Persons submitting comments electronically are encouraged to follow-up with a hard copy via regular mail:
