

**Public Notice – Request for Comment**  
**Draft Five-Year Rule Review of Ohio Administrative Code (OAC) Rules**  
**OAC Chapter 3745-76, “Control of Non-Methane Organic Emissions**  
**from Existing Landfills”**

Notice is hereby given that in accordance with Ohio Revised Code (ORC) 119.032 (5-year rule review), the Ohio Environmental Protection Agency, Division of Air Pollution Control (DAPC) has reviewed the following rule contained in Ohio Administrative Code (OAC) 3745-76. The rule is related to the requirements for the control on non-methane organic compound (NMOC) emissions from existing landfills. Our preliminary review indicates that this rule continues to be necessary and requires no changes.

As part of the rule-making process, DAPC is required by Section 121.39 of the Ohio Revised Code to consult with organizations that represent political subdivisions, environmental interests, business interests, and others affected by the rules. The DAPC is offering your organization the opportunity to comment on this rule before the division formally proposes them.

These rules and supporting documentation including a draft of the Business Impact Analysis (BIA) document are available electronically for review at: <http://epa.ohio.gov/dapc/regs/regs.aspx>. See the information under “Interested Party Review” tab for OAC Chapter 3745-76. We request that you provide us with any comments you may have to the draft BIA document by **Thursday, January 14, 2016**.

Please submit your comments or suggestions to the following addresses. Persons submitting comments electronically are encouraged to follow-up with a hard copy via regular mail:
