Submission of the Hazardous Chemical Inventory Report is required under section 312 of the Emergency Planning and Community Right-to-Know Act (EPCRA) which was enacted as Title III of the Superfund Amendments and Reauthorization Act of 1986, Public Law 99-499, 42 U.S.C. Section 11022.

The Ohio State Emergency Response Commission (SERC) administers and implements the Emergency Planning and Community Right-to-Know program in Ohio as authorized by Ohio Revised Code Chapter 3750. The purpose of the Hazardous Chemical Inventory Report is to provide state and local officials, emergency responders, and the public with specific information on hazardous chemicals present at facilities during the past year.

Who is Required to Report?

The owner or operator of a facility (tank battery/lease) having, at any one point in time during a calendar year, 10,000 pounds (about 1,375 gallons or 32/33 barrels) of petroleum crude oil, 10,000 pounds of a hazardous chemical such as brine/produce water (1,000 gallons), or the threshold quantity of an Extremely Hazardous Substance (EHS) is subject to these reporting requirements.

- 1) Within 90 days of acquiring any hazardous chemical (crude oil), submit a list of these chemical(s) to the SERC, Local Emergency Planning Committee (LEPC), and jurisdictional fire.
- 2) Within 60 days of acquiring the threshold planning quantity (TPQ) of an EHS, notify the SERC, LEPC, and fire department of the name of the EHS and the name of the facility emergency coordinator.
- 3) Annually submit a Tier 2 Emergency and Hazardous Chemical Inventory Report by March 1.

The definition of facility includes "all buildings, equipment, structures, and other stationary items that are located on a single site or on contiguous or adjacent sites that are owned or operated by the same person" (52 FR 38364). Unless the well properties are adjacent or contiguous, each well is a separate facility.

Reporting Form Options for Oil and Gas Well Owners

Oil and gas well owners have options of submitting a single-facility hazardous chemical inventory form, or a multi-facility hazardous chemical inventory form, if the facility is subject to the reporting requirements.

Filing one report for similar multiple facilities is a kind of "generic reporting." A generic report would consist of one submission which would provide the required information on each well (facility). The oil and gas multi-facility reporting form was designed to be a generic reporting form that allows the owner and/or operator to report production/storage tank batteries within a specific county together. Each completed county inventory report will contain one or more inventory form which lists tank batteries (facilities), their location and storage capacity.

However, a generic report may only be submitted for similar facilities. In order for facilities to be considered similar, they must have present the same extremely hazardous substances and hazardous substances on-site at any one time in similar amounts (quantities within the same range code). If the facilities are not similar, then the generic reporting format would not be considered in compliance with the reporting requirements.

Electronic Reporting

The SERC encourages all reporting facilities to use US EPA's electronic reporting software, Tier2 Submit, in lieu of the hard copy reporting forms. You can download a free copy of Tier2 submit from US EPA's Office of Emergency Management's website at: epa.gov/epcra/tier2-submit-software. Tier2 Submit allows users to duplicate reports, and simply update the location information in order to file reports for multiple, similar facilities.

Instructions for Completing the Reporting Form

Reporting Period

Enter the appropriate calendar year, beginning January 1 and ending December 31.

Identical Information to Previous Year

Check the box located at the top of page one of the form if the information to be reported for calendar year 2016 is identical to that submitted last year.

Part I — Facility Identification

Provide County. For reporting a single facility, complete the facility identification information. To report multiple facilities, in an attached spreadsheet (see example), identify each facility/well listing including: complete facility/well name, address or state/county road close to the well facility, city, state, zip code and latitude/longitude.

Part II — Additional Facility Specific Information

An owner or operator filing for a single facility should complete the information in Part II. An owner or operating filing a report for multiple facilities can complete the Part II Additional Facility Specific Information Section if the information is the same for all facilities included in the multiple facility report. If the information is different for specific locations, this information should be included in the spreadsheet which shall be attached to this generic report.

- Estimate the maximum number of occupants that may be present at any one time at your facility, manned or unmanned. You should include contractors, vendors and people that may be present for any maintenance, training or other events as well as employees. If the location is never manned, check the box marked N/A.
- Check the appropriate box to indicate if the facility is manned or unmanned. If the facility is unmanned throughout the year except to perform necessary activities (i.e. maintenance), check unmanned.
- If your facility is subject to the Toxic Release Inventory (TRI) program under section 313 of EPCRA, provide the identification number assigned by U.S. EPA. If your facility is not subject to this reporting requirement or if your facility has not been assigned a number under this program, check the box marked N/A.
- If your facility is subject to the chemical accident prevention provisions codified in 40 CFR part 68, also known as the Risk Management Program (RMP), provide the facility identification number assigned by U.S. EPA. If your facility is not subject to this provision or if your facility has not been assigned a number, check the box marked N/A.
- Subject to Emergency Planning — Indicate if your facility is subject to the emergency planning notification requirement under EPCRA section 302, (40 CFR part 355). Your facility is not subject to this requirement unless an extremely hazardous substance was present for the first time at the facility in an amount in excess of the threshold planning quantity for the substance.
- Subject to Chemical Accident Prevention — Indicate if your facility is subject to the chemical accident prevention requirements under Section 112 of the Clean Air Act (40 CFR part 68). Note: Regulated substances contained in condensate crude oil, field gas or produced water do not need to be considered when determining if the well facility is subject to this program.

Part III — Owner/Operator and Contact Information

- Owner or Operator Information — Enter the owner or operator's full name, mailing address, email address and phone number.
- Facility Emergency Coordinator (if applicable) — Enter the name, title, email address, phone number and 24-hour phone number of the facility emergency coordinator. Note: both federal and state law requires facilities subject to the emergency planning notification requirement to designate a facility representative who will participate in the local emergency planning process as a facility emergency coordinator.
- Tier II Information Contact — Enter the name, title, email address and phone number of the person knowledgeable of the information contained in the Tier II inventory form.

Part IV — Chemical Information

- Check box if storage locations and facility maps are confidential.
- Chemical Description — Provide the pure chemical or mixture or trade name as provided on the Safety Data Sheet (SDS).

If you are withholding the name of a chemical or mixture in accordance with criteria specified in EPCRA Trade Secret claims, enter the generic class or category that is structurally descriptive of the chemical (e.g., list toluene diisocyanate as organic isocyanate) and check the box marked Trade Secret. Trade secret information must be submitted to U.S. EPA and must include a substantiation packet. Trade secret regulations can be found in 40 CFR part 350. You may also visit U.S. EPA's website at epa.gov/epcra/epcra-trade-secret-forms-and-instructions

Maximum Amount

- 1) For each hazardous chemical or mixture, estimate the maximum amount present at your facility on any single day during the reporting period. If you are reporting a mixture, you must list any EHS(s) present in the mixture and report the maximum amount and the CAS number(s) of each EHS present in the mixture.
- 2) Find the appropriate range value code in Table I.
- 3) Enter this range value as the maximum amount.

Table I - Reporting Ranges

| Range Code | Weight Range in Pounds | |
|------------|------------------------|-------------------------|
| | From | To |
| 01 | 0 | 99 |
| 02 | 100 | 499 |
| 03 | 500 | 999 |
| 04 | 1,000 | 4,999 |
| 05 | 5,000 | 9,999 |
| 06 | 10,000 | 24,999 |
| 07 | 25,000 | 49,999 |
| 08 | 50,000 | 74,999 |
| 09 | 75,000 | 99,999 |
| 10 | 100,000 | 499,999 |
| 11 | 500,000 | 999,999 |
| 12 | 1,000,000 | 9,999,999 |
| 13 | 10,000,000 | Greater than 10 million |

Storage Types, Conditions and Locations

List all locations of hazardous chemicals along with storage types and conditions associated with each location. Please note that a particular chemical may be located in several places around the facility.

Enter the types and conditions of storage for each chemical that you are reporting.

- Table II — this table lists examples of some of the common storage types that facilities use at their site. You may provide a detailed description for the storage type at your facility.
- Table III — for each location, find the appropriate storage types for pressure and temperature conditions. You may provide a description for the various conditions at your facility.

| Table II - Storage Types | Table III - Pressure and Temperature Conditions |
|---|--|
| <ul style="list-style-type: none"> • Above ground tank • Below ground tank • Tank inside building • Steel drum Plastic or non-metallic drum • Can • Carboy • Silo • Fiber drum • Bag • Box • Cylinder • Glass bottles or jugs • Plastic bottles or jugs • Tote bin • Tank wagon • Rail car • Battery | <p>PRESSURE</p> <ul style="list-style-type: none"> • Ambient pressure; • Greater than ambient pressure • Less than ambient pressure <p>TEMPERATURE</p> <ul style="list-style-type: none"> • Ambient temperature • Greater than ambient temperature • Less than ambient temperature but not cryogenic • Cryogenic conditions |

Average Daily Amount

- 1) For each hazardous chemical, estimate the average weight in pounds that was present at your facility during the year.
- 2) To do this, total all daily weights and divide by the number of days the chemical was present on the site.
- 3) Find the appropriate range value in Table I.
- 4) Enter this range value as the Average Daily Amount.

Certification

The owner or operator or the officially designated representative of the owner or operator must certify that all information included in the Tier II submission is true, accurate and complete. Enter your full name and official title. Sign your name and enter the current date.

When is the Report Due?

The report is due March 1, 2017. Tier II forms must be submitted annually by March 1 to:

- The Ohio State Emergency Response Commission (SERC)
- Local Emergency Planning Committee, and
- Fire Department with jurisdiction over the facility.

Where Can I Find More Information?

For additional information regarding the Emergency Planning and Community Right-to-Know requirements, reportable chemicals and addresses for the Local Emergency Planning Committees, please see the *Instructions for Oil and Gas Production/Storage Sites* which is available at: epa.ohio.gov/dapc/serc/invforms.aspx.

Release Reporting of a Hazardous Substance

The State Emergency Response Commission (SERC) finalized a set of eight (8) release reporting rules (3750-25-01; 3750-25-05; 3750-25-10; 3750-25-12; 3750-25-13; 3750-25-15; 3750-25-20; and 3750-25-25), effective June 30, 1993. The purpose of this section is to make you aware of your reporting obligations in case of a discharge or release.

All verbal notifications made under these rules are to be reported to the Ohio EPA's Emergency Response Section, Local Emergency Planning District which may be affected, and the jurisdictional fire department.

An owner or operator is required to report a release or discharge under 3750.06 of the Ohio Revised Code anytime there is a release or spill of a regulated chemical which exceeds its assigned Reportable Quantity (RQ) and leaves the facility property line. The regulated substances subject to the release reporting requirements are referenced below.

Materials Subject to Release Reporting

- Extremely Hazardous Substances 40 CFR; Part 355; Appendix A and B,
- CERCLA Hazardous Substances 40 CFR Part 302; Table 302.4, and
- Oil (definition includes without limitation to, gasoline, petroleum, fuel oil, sludge, oil refuse, and oil mixed with wastes other than dredged spoil).
- The Reportable Quantity (RQ) for the discharge of oil including crude oil into or upon navigable waters is an amount which causes a visible film or sheen upon the surface of the water.
- The RQ for the release of oil into the environment, excluding navigable waters, is an amount of 25 gallons or more.
- The RQ for the release of crude oil from an oil and gas extraction storage facility into the environment, excluding navigable waters, is 210 gallons.

Verbal Notification Requirement

The verbal notification to the fire department, LEPC, and Ohio EPA shall be made within 30 minutes of knowledge of the release, unless notification within that timeframe is impractical due to uncertain circumstances.

Effective August 9, 2016, oil and gas regulated sites under ORC Chapter 1509 shall make the verbal notification within 30 minutes of knowledge of the release to Ohio Department of Natural Resources (ODNR) at 1-844-OHCALL1, LEPC and jurisdictional fire department.

In addition, calls to the National Response Center (NRC) shall be made for those reportable quantity releases involving CERCLA hazardous substances or oil to navigable waters as soon as possible. **The National Response Center (NRC) 24-hour number is 1-800-424-8802.**

Be prepared to relay as much of the information listed below as is known or can be estimated at the time of reporting. Please remember this is an initial report and estimates can be corrected in your follow-up emergency notice report.

- Name and phone number of the person to contact for further information.
- Location and source of the release or discharge.
- Chemical name or identity of any substance involved in the release or discharge.
- Is the substance an extremely hazardous substance?
- Estimate of the quantity (gallons or pounds) discharged into the environment.
- Time and duration of the release or discharge.
- The environmental medium or media into which the substance was released or discharged.
- Potential health effects associated with the release or discharge of the substance.
- Report precautions taken, including evacuation, remediation, or other proposed response actions.

This information is required under ORC Section 3750.06(C) and Rule 3750-25-25(A)(1) of the Ohio Administrative Code (OAC).

Written Follow-up Requirements

After the spill, release or discharge, written follow-up emergency notice must be submitted within 30 days to the Ohio EPA Emergency Response Section and the local planning committee of the planning district in which the release or discharge occurred, unless the release was from a vessel, and then the report is sent only to the SERC. This follow-up emergency notice is your company's opportunity to explain in its own words the circumstances and actions relating to the release of pollutants to the environment. Your written emergency notice should follow the question sequence as indicated below. If any of the questions are not applicable to your incident, indicate N/A (not applicable) for that item.

Effective August 9, 2016, oil and gas regulated sites under ORC Chapter 1509 must submit the written follow-up report within 30 days to the Chief of the Division of Oil and Gas Resources Management with ODNR and the LEPC.

1. Who

- Complete facility name, address and telephone number of the facility from which the release occurred.
Complete name of owner and/or operator.

2. When

- Actual time, date, and duration of the discharge or release.
- Actual time and date of discovery of the release or discharge.
- Actions taken to respond to and contain the release or discharge.
- Indicate the spill number assigned by Ohio EPA. (If you do not know this number, call a duty officer during business-hours and ask. The telephone number is (614) 644-3194). If the National Response Center was notified, please provide their assigned case number.

The release notification for 24-hour reporting of spills in the State of Ohio is:

In Ohio call: 1-800-282-9378

If the 1-800 number does not work, call:
(614) 224-0946

**Oil and Gas release notification
1-844-OHCALL1**

In addition, facility must call:

- LEPC emergency coordinator
- Jurisdictional fire department

3. Location

- Location of facility from which the release or discharge occurred.
- Location of release: county, township, and city.
- Longitude and latitude of the release, if known.
- Distance and direction from nearest intersection or milepost if it was a transportation-related release or discharge.

4. Product Release

- Common and/or technical name of the material released or discharged and CAS Numbers.
- What was the quantity and duration of the discharge? Indicate volume in gallons or pounds.

5. Environmental Impact

- Name of the environmental medium or media affected (i.e. navigable waters, land, and/or air). If navigable waters, please identify.
- What was the length of area of the navigable waterway affected?
- What was the ground surface area (square feet or yards) and depth of soil contamination?
- To the extent information is available; identify damage to wildlife and/or vegetation.
- To the extent information is available; identify impact to human health and safety (i.e. evacuations, exposure, etc.)
- Where appropriate, identify medical advice provided for exposed individuals and or local medical personnel.

6. Monitoring and Detection

- If the release or discharge was monitored, indicate the method of detection and concentrations detected.
- If the release was air-borne, how was the wind direction and speed determined?
- Was the public warned, and if so, how?

7. Mitigation, Containment Action

- How much product or waste was recovered or neutralized?
- How was the material recovered or neutralized?
- Were any other actions taken to reduce the impact of the discharge (containment, adsorbents, on-site treatment, etc.)?

8. Prevention Measures

- Please provide plans to prevent recurrence of the discharge or release which may occur at this specific source. This may include: employee training, replacement of equipment, construction, or security measures such as lighting, fencing or locks.

9. Health Risks

- List known or anticipated acute and chronic health risks of exposure associated with the substances which were released.

10. Permit Numbers

- Indicate any air, water, or other permit numbers which may be pertinent to this incident (voluntary information).
- If this is a NPDES/air permit, please enclose a copy of your current effluent/emission limitations.

11. Chronology

- Provide a chronological review of the incident. Include a chronology of communications with state and local government.

12. Documentation

- Provide any reports or other documents which pertain to the incident (e.g. accident reports, manifest, bills of lading, and laboratory analyses).

13. Causes

- Describe any extenuating circumstances which caused the discharge.

14. Economic Impact

(This information is voluntary)

- Estimate the dollar value, if any, of the spilled product.
- What was the equipment damage cost (estimate)?
- What was the cost of spill cleanup (estimate)?
- What are the estimated costs of spill prevention to eliminate possible reoccurrence of this event?

This information is required pursuant to ORC Section 3750.06(D) and OAC Rule 3750-25-25(A) (2).

The statute provides that if significant additional information regarding the mandatory or voluntary information submitted becomes known during the period between submission of the written report and one (1) year after the release or discharge, the owner or operator shall submit to the LEPC and the Ohio EPA an updated written notice within three (3) days after learning of the additional information.

If this is the second oil spill release at this location within a 12-month period, or a release of over 1,000 gallons which has reached water, then you must submit a copy of your Spill Prevention Control and Counter-measure Plan (SPCC) to the U.S. EPA Regional Administrator and to Ohio EPA within 60 days from the time of the discharge as required by 40 CFR 112.4. Your SPCC plan may be submitted with your response to the 30-day written follow-up report. You may obtain SPCC information from U.S. EPA, by contacting their Hotline Center at 800-424-9346.

The written emergency notice must be submitted within 30 days of the spill, release or discharge to:

Ohio EPA — DAPC/SERC
Lazarus Government Center
50 West Town Street, Suite 700
P.O. Box 1049
Columbus, Ohio 43216-1049

Note: the 30-day written spill/release notice to the Ohio EPA can be submitted by attaching the report and emailing to: SERCSpillreport@epa.ohio.gov.

Please reference the Ohio EPA, Emergency Response spill number on the email subject line.

Listings for County LEPC coordinators by county may be found on pages 10-23 of this manual.

Ohio Local Emergency Planning Committee Information and Emergency Coordinators by County

NOTE: This list contains the 24-hour emergency telephone numbers of LEPC Emergency Coordinators (as of 10/1/16). These numbers are to be used only to report reportable spills/releases to local officials. In the majority of cases, the 24-hour number is a dispatching number (Sheriff's Dept./Fire Dept./Police). Please do not call the 24-hour emergency number for general program questions or issues. This is only an emergency incident reporting telephone number.

NOTE: Questions about annual chemical inventory reports or filing fees should be directed to the information coordinator of your planning district (see below) or a state representative of the SERC ((614) 644-2260) or 1-888-644-2260 (toll free).

Date Due 03 / 01 / 2017

Facility Name Beatty Oil and Gas Production

Address 1462 Elmo Blvd

City Geothermal OH Zip 44670 -

Revenue ID _____ Revenue Type RTKOG

County Licking

Ohio EPA Use ONLY

Check ID# _____

Check Date _____

Check # _____

Check Amount \$ _____

I. Fee Calculation

| | | |
|--|----------|-----|
| Line A: Base inventory filing fee | \$ 50.00 | (A) |
| Line B: Write the total number of storage facilities which you reported in excess of 10,000 pounds (32/33 barrels) of petroleum crude oil or other hazardous substance(s) on site in connection with the production or storage of crude oil. | 7 | (B) |
| Line C: Subtract 25 from the amount listed on Line B (if this number is less than 0, enter 0). | 0 | (C) |
| Line D: Multiply the amount on Line C <u>0</u> x \$10 | \$ 0 | (D) |
| Line E: Add the total on Line D to Line A. If the total amount exceeds \$900, enter \$900 on Line E. | \$ 50 | (E) |

II. List county(ies) and the total number of wells for each which your parent company has operating oil and gas extraction/storage site(s)

Columbiana (4)

Washington (3)

III. Credits

| | | |
|--|----|-----|
| Line F: Enter any credits that were paid to any city or municipality as a result of a "grandfathered" local Right-to-Know (RTK) program. (Any facility claiming this credit must attach a receipt or other document showing the amount paid and that the purpose was for community RTK). If no fee was paid, enter zero (0). | \$ | (F) |
|--|----|-----|

IV. Late Fees

| | | |
|---|----|-----|
| Line G: If your inventory and filing fee is postmarked after March 31, your facility must pay a 10% late filing fee. Enter Line E _____ x .10 | \$ | (G) |
|---|----|-----|

V. Total Filing Fee Due

| | | |
|--|-------------|-----------|
| Line H: Subtract Line F from Line E, then add Line G if applicable. Amount on Line H is your facility's annual inventory filing fee. | (E - F + G) | \$ 50 (H) |
|--|-------------|-----------|

Facility Annual Chemical Filing Fee Worksheet (Oil and Gas Extraction and Storage Site(s))

Date Due _____ / ____ / ____

Facility Name _____

Address _____

City _____ OH Zip _____ - _____

Revenue ID _____ Revenue Type _____ RTKOG _____

County _____

Ohio EPA Use ONLY

Check ID# _____

Check Date _____

Check # _____

Check Amount \$ _____

I. Fee Calculation

| | | |
|--|----------|-----|
| Line A: Base inventory filing fee | \$ 50.00 | (A) |
| Line B: Write the total number of storage facilities which you reported in excess of 10,000 pounds (32/33 barrels) of petroleum crude oil or other hazardous substance(s) on site in connection with the production or storage of crude oil. | _____ | (B) |
| Line C: Subtract 25 from the amount listed on Line B (if this number is less than 0, enter 0). | _____ | (C) |
| Line D: Multiply the amount on Line C _____ x \$10 | \$ _____ | (D) |
| Line E: Add the total on Line D to Line A. If the total amount exceeds \$900, enter \$900 on Line E. | \$ _____ | (E) |

II. List county(ies) and the total number of wells for each which your parent company has operating oil and gas extraction/storage site(s)

| | | | |
|--|--|--|--|
| | | | |
| | | | |
| | | | |
| | | | |

III. Credits

| | | |
|--|----------|-----|
| Line F: Enter any credits that were paid to any city or municipality as a result of a "grandfathered" local Right-to-Know (RTK) program. (Any facility claiming this credit must attach a receipt or other document showing the amount paid and that the purpose was for community RTK). If no fee was paid, enter zero (0). | \$ _____ | (F) |
|--|----------|-----|

IV. Late Fees

| | | |
|---|----------|-----|
| Line G: If your inventory and filing fee is postmarked after March 31, your facility must pay a 10% late filing fee. Enter Line E _____ x .10 | \$ _____ | (G) |
|---|----------|-----|

V. Total Filing Fee Due

| | | |
|--|-------------|--------------|
| Line H: Subtract Line F from Line E, then add Line G if applicable. Amount on Line H is your facility's annual inventory filing fee. | (E - F + G) | \$ _____ (H) |
|--|-------------|--------------|
