IV. FINDINGS

6. The Director of Ohio EPA has determined the following findings. Nothing in the findings shall be considered to be an admission by Respondent of any matter of law or fact:

a. Q3 JMC Inc. ("Q3 JMC") owned and operated a Plastics Division manufacturing facility, located at 200 Beech Street, Urbana, Champaign County, Ohio (the "Beech Street facility"), beginning on March 8, 1995, when it purchased the Plastics Division and the Beech Street facility from Johnson Industries Corp. (later known as Urbana Holdings Co.), which had owned and operated the Beech Street facility since 1978.

b. Manufacturing processes conducted by Q3 JMC's Plastics Division included custom thermo-setting, encapsulating, and plastic injection molding.

c. Past owners/operators of the Beech Street facility include a wholly owned subsidiary of Honeywell International, Inc. ("Honeywell"), i.e., Grimes Manufacturing Company ("Grimes"), which owned and operated a Plastics Research Division at the Beech Street location from August 1976 through August 1978. Prior to 1976, Grimes leased the property from the previous owner, the Erie-Lackawanna Railroad Company. Grimes had operated at this location since 1942, manufacturing and assembling aviation lighting products.

d. On April 18, 2002, Ohio EPA personnel conducted a field investigation at and around the Beech Street facility. Ground-water

samples were collected from six locations on the southwestern and apparent downgradient side of the Beech Street facility, and from six locations from the northeast and apparent upgradient side of the Beech Street facility. PCE was detected at a concentration of 300 ug/l in Q3GP-5 and 30 ug/l in Q3GP-6. Both locations are on the southwest and apparent downgradient side of the Beech Street facility. PCE was not detected in any of the upgradient samples.

e. In July 2002, Ohio EPA sent letters to Honeywell and Q3 JMC pursuant to § 104(e) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) of 1980 requesting detailed information as to processes and operations conducted during their respective occupancies of the Beech Street facility. Q3 JMC responded by affidavit that they have not used chlorinated solvents in any of their processes during their occupancy of the Beech Street facility and did not possess any records of Grimes' previous operations or processes. Q3 JMC's response did not address the time period of 1978 through 1995 during which Johnson Manufacturing Company owned and operated the Beech Street facility.

f. Honeywell responded by affidavit that Grimes conducted operations at the Beech Street facility beginning in 1942. These operations included the manufacture and assembly of aviation lighting components. Honeywell's response indicates that at some point, their operations at the Beech Street facility shifted entirely to the manufacture of plastic products and became the Plastics Research Division which was sold to Johnson Manufacturing Company (which became Johnson Industries Corp.) in 1978, and which was sold by Johnson Industries Corp. (later known as Urbana Holdings Co.) to Q3 JMC, Inc. in 1995.

g. The Beech Street facility is a hazardous waste facility, solid waste facility or other location where hazardous waste was treated, stored, or disposed. Respondent generated contaminants at the Site, and/or directly or indirectly allowed the placement and/or disposal of contaminants at the Site.

h. Conditions at the Site have constituted a substantial threat to public health or safety or are causing or contributing or threatening to cause or contribute to air or water pollution or soil contamination, per ORC § 3734.20(B).

i. The ground water and surface water at the Site are waters of the state, as defined under ORC § 6111.01(H). The migration and threatened migration of tetrachloroethene to soil, ground water or surface water at or from the Site constitutes a discharge of industrial waste or other waste to waters of the state.

- j. Ohio EPA has incurred Response Costs in connection with the Site.

14. Respondent shall preserve for the duration of these Orders and for a minimum of ten (10) years after termination of these Orders, one (1) complete set of all non-privileged Site-related documents in possession or control of Respondent (or its contractors or agents) as of the Effective Date of these Orders, notwithstanding any document retention policy to the contrary. At the conclusion of this document retention period, Respondent shall notify Ohio EPA at least sixty (60) days prior to the destruction of these non-privileged documents or other information; and upon request, shall deliver such non-privileged documents and other information to Ohio EPA.

IX. OTHER CLAIMS

16. Nothing in these Orders shall constitute or be construed as a release from any claim, cause of action, or demand in law or equity against any person, firm, partnership, or corporation not a party to these Orders, for any liability arising from, or related to, events or conditions at the Site.

X. RESERVATION OF RIGHTS

17.
