The objectives of this training include guidance on communicating your project needs to the VAP Certified Lab (CL), understanding the lab's needs, and tips on collecting representative samples to ensure proper analysis so lab reports are complete and have a higher likelihood of providing answers to the questions concerning your project. The key theme of this training is creating a team (e.g. CP, project manager, lead field technician, CL) with the knowledge and experience to determine what information is needed to answer those questions and utilizing each team members' expertise throughout the VAP Phase II process.

AGENDA - with links to presentations

- | | |
|--------------------------|---|
| 8:30 – 9:00am | Registration |
| 9:00 - 9:10am | Introduction – Amy Yersavich, DERR/CO |
| 9:10-10:10am | <u>The Importance of Quality Assurance Documents and Coordination with Certified Laboratories</u> – Sue Netzly-Watkins, DERR/NEDO and Amy Yersavich, DERR/CO |
| 10:10-10:25am | BREAK |
| 10:25-11:25am | <u>Communication with Certified Laboratories Prior to Sampling</u> – Astrea Taylor, DERR/SWDO |
| 11:25am – 12:35pm | LUNCH (on your own) |
| 12:35-2:05pm | <u>Sampling: Your Data is only as Good as your Field Sample Technicians</u> – Jeff Martin, DERR/CO and Gavin Armstrong, DERR/SIFU |
| 2:05-2:20pm | BREAK |
| 2:20-4:00pm | <u>Certified Laboratory Analysis: What really happens when you drop off that sample at the VAP CL and why it's important for CPs to know</u> – Kevin Shoemaker, DERR/CO, Astrea Taylor, DERR/SWDO and Opal Johnson, Summit Environmental Technologies, Inc. |
| 4:00 – 5:00pm | <u>Return of the VAP Project DQOs! Data Interpretation and Risk Assessment</u> – Sue Netzly-Watkins, DERR/NEDO and Mike Allen DERR/CO |
