**Re: American Landfill, Stark County  
Ohio Administrative Code (OAC) Rule 3745-27-10(D)(7)(c)(ii) Approval  
2009 First Semiannual Detection Monitoring Event**

Dear Mr. Ali:

On August 21, 2009, the Ohio Environmental Protection Agency (Ohio EPA), Division of Solid and Infectious Waste Management (DSIWM), Northeast District Office (NEDO) received a document titled *Alternate Source Demonstration 2009 First Semiannual Detection Monitoring Event, American Landfill, Inc.* dated August 18, 2009, for the American Landfill (Facility) located in Stark County. This document was submitted by Eagon and Associates, Inc. and contains the ground water sampling results and the statistical analysis from the April 20-22, 2009, ground water sampling event at the Facility.

According to the document, analysis of the ground water detection monitoring data indicated that the following statistically significant increases (SSIs) were detected: benzene at monitoring well PHL/BC-4; chloride at monitoring well LKC-4; copper at monitoring well PHL/BC-15; potassium at monitoring well LKC-5; selenium at monitoring wells PHL/BC-1, PHL/BC-11, PHL/BC-12, and PHL/BC-14; and, sodium at monitoring wells LKC-3A, LKC-4, LKC-7, AMW-3, AMW-16, and PHL/BC-17.

Pursuant to OAC Rule 3745-27-10(D)(7)(c)(ii), the owner or operator may demonstrate that a source other than the sanitary landfill facility caused the contamination, or that the SSIs resulted from error in sampling, analysis, or statistical evaluation or natural variation in ground water quality. A report documenting this demonstration must be submitted to and approved by Ohio EPA. If the owner or operator does not obtain approval to continue detection monitoring within two hundred ten (210) days from initial sampling, the owner or operator is required to comply with the provisions of OAC Rule 3745-27-10(E) for ground water quality assessment monitoring.

The August 18, 2009, document concluded that the SSI for benzene at monitoring well PHL/BC-4 was caused by an error in sampling; the SSIs for selenium at monitoring wells PHL/BC-1, PHL/BC-11, PHL/BC-12, and PHL/BC-14, and sodium in monitoring wells PHL/BC-17, LKC-7, and AMW-16 were due to natural variation in ground water quality; and the SSIs for sodium at monitoring wells LKC-3A, LKC-4, and AMW-3, chloride at monitoring well LKC-4, copper at monitoring well PHL/BC-15, and potassium at monitoring well LKC-5 were caused by a source other than the sanitary landfill facility. Ohio EPA has reviewed the applicable information and concurs with the demonstration included in the August 18, 2009

Ted Strickland, Governor  
Lee Fisher, Lieutenant Governor  
Chris Korleski, Director

document for monitoring wells PHL/BC-4, LKC-4, PHL/BC-15, LKC-5, PHL/BC-1, PHL/BC-11, PHL/BC-12, PHL/BC-14, LKC-3A, LKC-7, AMW-3, AMW-16, and PHL/BC-17. Therefore, pursuant to OAC Rule 3745-27-10(D)(7)(c)(ii), the owner or operator is hereby authorized to continue the detection monitoring program at the Facility for monitoring wells PHL/BC-4, LKC-4, PHL/BC-15, LKC-5, PHL/BC-1, PHL/BC-11, PHL/BC-12, PHL/BC-14, LKC-3A, LKC-7, AMW-3, AMW-16, and PHL/BC-17. Should future or existing ground water sampling results indicate SSIs in ground water monitoring parameters, the owner or operator will be required to either enter into assessment monitoring in accordance with OAC Rule 3745-27-10(E) or obtain approval to remain in the detection monitoring program.

You are hereby notified that this action of the Director of Ohio EPA (Director) is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
309 South Fourth Street  
Room 222  
Columbus, Ohio 43215

If you have any questions concerning this letter, please contact Joshua Adams of Ohio EPA, DSIWM-NEDO at 330-963-1103.

Sincerely,

William T. Skowronski, Chief  
Northeast District Office  
for Chris Korleski, Director
