**Re: Fraser Papers, Inc., Land Reclamation Site, Montgomery County, Ohio
Request to Reinstate Well M-71A Back Into Detection Monitoring Program
Administrative Code (OAC) Rule 3745-30-08(D)(9)(b)**

Dear Mr. Manzer,

On January 29, 2010, the Ohio Environmental Protection Agency (Ohio EPA), Division of Solid and Infectious Waste Management (DSIWM), Southwest District Office (SWDO), received a document titled "November 2009 Semi-Annual Post Closure Groundwater Monitoring Report, Year 5 Post-Closure Period," dated January 27, 2010 for the Fraser Papers Inc. Land Reclamation Site (Facility), located in Montgomery County. This document was submitted by Eagon & Associates, Inc., on behalf of Fraser Papers Inc. (Fraser), and was supplemented in April 2010. The Facility requested reinstatement of the groundwater detection monitoring program for well M-71A in accordance with OAC Rule 3745-30-08(D)(9)(b).

Pursuant to OAC Rule 3745-30-08(D)(9)(b), the owner or operator may demonstrate that a source other than the landfill facility is the cause of the contamination or that the statistically significant increase results from error in the sampling, analysis, or statistical evaluation, or from natural variation in ground water quality. The provided documents provided sufficient evidence that the statistically significant changes for sodium at monitoring well M-71A were not waste derived and may be attributed to natural variation.

Ohio EPA has reviewed the applicable information and **concurs** with the demonstration. Therefore, pursuant to OAC Rule 3745-30-08(D)(9)(b), Fraser is authorized to reinstate the detection monitoring program at the Facility for monitoring well M-71A.

Bill Manzer
Fraser Papers, Inc., Land Reclamation Site
Page 2 of 2

Should future or existing ground water sampling results indicate statically significant increases in ground water monitoring parameters, the owner operator will be required to enter into assessment monitoring in accordance with OAC Rule 3745-30-08(E) or obtain an approval to remain in the detection monitoring program.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Kevin Boyce," which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
309 South Fourth Street, Room 222
Columbus, OH 43215

If you have any questions concerning this authorization, please contact Ohio EPA's Southwest District Office at 937-285-6357.

Sincerely,

Jeff G. Hines
Chief, Southwest District Office
