¹ In cases where the discharge is only for storm water ("SW"), no design flow is listed in the permit.

² --- indicates no data were reported. Average flows were based on the last five years.

³ The first letter indicates the number of permit cycles that have occurred for the facility, where "A" represent the first and "B" represents the second and so on. Permit cycles typically occur over five year time periods.

The Crooksville Coal Company (0IP00306) has received a "no permit required" designation.
