## Seminar Information

This half-day seminar provides important information regarding maintaining compliance with environmental, health and safety regulations.

### Who Should Attend?

Anyone responsible for environmental, health and safety compliance.

### What Will I Learn?

Topics presented in the seminar include:

- an update of RCRA regulations for small and large quantity generators;
- how to determine if your waste is hazardous waste;
- manifesting wastes;
- RCRA land disposal restrictions;
- an introduction to the new Global Harmonization System for Hazard Communication; and
- a review of the new Industrial Stormwater General Permit.

Please note that, depending on your Personnel Training Plan, the RCRA portion of this workshop may fulfill part of your annual RCRA training requirement (non-site specific portion). Site-specific RCRA training requirements are not covered and remain the responsibility of the individual facility.
