Ohio Environmental Protection Agency

College Scholarship Opportunities

in environmental science and environmental engineering

Who is eligible?

Up to $2,500 is available for students entering their final year in four-year and five-year programs. Up to $1,250 is available to second year students in two-year degree programs at public or private technical and community colleges in Ohio.

Majors we look for

- environmental science
- biology
- botany
- chemistry
- chemical, civil and environmental engineering
- environmental health and safety
- forestry
- geology
- laboratory sciences
- natural resource conservation
- wildlife management
- zoology and related fields

Scholarship goal

Merit-based, non-renewable scholarships are offered to encourage students to complete degrees and enter careers in environmental science and engineering fields.

Requirements

Applicants must have an overall GPA of at least 3.0 plus recommendation letters and evidence of career motivation.

Application Deadline: April 15
