

# OHIO

residents and businesses

generate an estimated **517,000 tons** of glass per year.

**10%** recycled

**90%** of all glass

goes into a landfill!

Adding tiny bits of scrap glass [cullet] to raw glass ingredients helps

decrease the amount of **energy** required to make new products.

**Ohio's** manufacturers use **110,000 tons** scrap glass per year but they **NEED 195,000 tons MORE**

New recycling could recover

**53,000 tons** of glass from **bars and restaurants,**

**14,400 tons** from **drop offs.**

**68,000 tons** from **curbside recycling and**

When you **recycle** glass, you **help**

Are you done with that?  
Well, we aren't.  
We recycle.
