

Model General Permit (MGP) Qualifying Criteria Document

Source Description: Dry to Dry perchloroethylene dry cleaning non-residential facility that uses up to 2100 gallons of perchloroethylene per rolling, 12-month period, installed before December 21, 2005

MGP Number: GP 2.1

Qualifying Criteria:

Answer the following questions by checking the appropriate box for the choice that describes the equipment for which you are applying for a permit.

- Yes No 1. Are all non-coin operated dry cleaning machines at this facility dry-to-dry, closed loop machines?
- Yes No 2. Is perchloroethylene the only solvent used in the dry cleaning machines at this facility?
- Yes No 3. Does the facility use no more than 2100 gallons per year of perchloroethylene?
- Yes No 4. Were all dry cleaning machines at the facility installed before December 21, 2005?
- Yes No 5. Is each non-coin operated dry cleaning machine equipped with a refrigerated vapor condenser to condense vapors from the drum?
- Yes No 6. Can the operator of all of the non-coin operated dry cleaning machines at the facility meet the allowable emission limits and all other terms and conditions contained in the Model General Permit?
- Yes No 7. Since July 28, 2008, has the operator of the facility been using a halogenated hydrocarbon detector or PCE gas analyzer to check all non-coin operated dry cleaning machines for leaks at least once per month?
- Yes No 8. Is the facility located somewhere other than a building with a residence?
- Yes No 9. Is this dry cleaning facility a stand-alone operation? ("Stand-alone" means dry cleaning is the primary operation done at this facility. If the dry cleaning facility is a minor part of a larger facility such as a university, hospital, military base, check "No" and contact the appropriate Ohio EPA District Office or local air agency about general permit applicability.

Model General Permit (MGP) Qualifying Criteria Document

If you answered "Yes" to questions 1 through 9 above then the dry cleaning facility meets the above "Qualifying Criteria" for the general permit. Otherwise, the dry cleaning facility is not eligible for a general permit and will, instead, need a standard, or traditional, permit.

By signing below, the owner or operator's signature shall constitute personal affirmation that the applicant meets the qualifying criteria contained above, and shall subject the signatory to liability under applicable state laws forbidding false or misleading statements.
