

## Public Notice – Request for Comment

### Draft Amended Rules in OAC Chapter 3745-110, Nitrogen Oxides - Reasonably Available Control Technology

Notice is hereby given that in accordance with Ohio Revised Code (ORC) 119.032 (5-year rule review), the Ohio Environmental Protection Agency, Division of Air Pollution Control has reviewed rules 3745-110-01 through 3745-110-05 contained in the Ohio Administrative Code (OAC). These rules contain Ohio's "Nitrogen Oxides - Reasonably Available Control Technology" program (i.e., NOx RACT rules). Our preliminary review indicates that these rules continue to be necessary and require changes as follows:

Modification of OAC rule(s) 3745-110-01, 3745-110-03, 3745-110-04, and 3745-110-05.

DAPC is proposing a new presumptive NOx emission limitation be added for reheat furnaces. The remaining draft amendments are minor in nature, primarily for clarification, formatting and typographical corrections.

As part of the rule-making process, DAPC is required by Section 121.39 of the Ohio Revised Code to consult with organizations that represent political subdivisions, environmental interests, business interests, and others affected by the rules. The DAPC is offering your organization the opportunity to comment on these rules before the division formally proposes them.

These rules, the draft BIA Form, and supporting documentation are available electronically for review at: <http://epa.ohio.gov/dapc/regs/regs.aspx>. See the information under interested party review tab for OAC Chapter 3745-110, "NOx RACT rules." We request that you provide us with any comments you may have to the changes that have been recommended by **Monday, February 25, 2013**.

Please submit your comments or suggestions to the following addresses. Persons submitting comments electronically are encouraged to follow-up with a hard copy via regular mail:
