

RULE SYNOPSIS

Draft rule language for Ohio Administrative Code (OAC) Chapter 3745-80

The Ohio EPA Division of Air Pollution Control (DAPC) has completed draft amendments to the rule language for implementation of the statewide motor vehicle anti-tampering program. The amendments are being made after a review to fulfill the requirement of Ohio Revised Code (ORC) 119.04 (5-year review).

The suggested changes for this entire rule package are described in more detail below under each rule heading:

OAC rule 3745-80-01 Definitions

DAPC is suggesting a limited number of changes to this rule as presented below in descending order (paragraph (K) through paragraph (M)).

- Paragraph (K) defines the term, "tamper with." A minor grammatical change was made.
- Paragraph (M) includes references to certain subject matter or materials. Minor language and grammatical changes were made. Reference material information and availability was updated.

OAC rule 3745-80-02 Tampering prohibitions

- Small typographic and grammatical changes

OAC rule 3745-80-03 Anti-tampering inspection procedures and requirements

- The rule contains language describing how anti-tampering inspections shall be performed in accordance to U.S. EPA requirements. Minor grammatical changes were made.
