

*** DRAFT – NOT FOR FILING ***

3745-17-09 **Restrictions on particulate emissions and odors from incinerators.**

(A) General provisions.

(1) This rule shall apply to any incinerator except those regulated under Chapter 3745-75 of the Administrative Code.

(2) For the purposes of this rule, the total of the capacities of all incinerators which are united either physically or operationally shall be considered as the incineration capacity.

(3) The burning of garbage, tires, rubber or plastic coated wire, materials containing plastic, materials containing rubber, creosote-impregnated waste materials, waste petroleum products, paint and paint thinners, chemicals, wall board, manure, animal carcasses, or asphalt products in an outdoor wood-fired boiler, as defined in rule 3745-17-01 of the Administrative Code, is considered incineration and shall subject the outdoor wood-fired boiler to the requirements of this rule.

(B) Emission limitation.

No person shall cause, suffer, or allow to be emitted into the ambient air from any incinerators, particulate emissions in the exhaust gases in excess of: 0.10 pound per one hundred pounds of liquid, semi-solid or solid refuse and salvageable material charged, for incinerators having incineration capacities equal to or greater than one hundred pounds per hour; or 0.20 pound per one hundred pounds of liquid, semi-solid or solid refuse and salvageable material charged for incinerators having incineration capacities less than one hundred pounds per hour.

(C) Design-operation requirements.

Incinerators, including all associated equipment and grounds, shall be designed, operated and maintained so as to prevent the emission of objectionable odors.
