

3745-22-09

Asbestos hazard abatement project designer application content, qualifications, standards of conduct.

[Comment: For dates of non-regulatory government publications, publications of recognized organizations and associations, federal rules, and federal statutory provisions referenced in this rule, please see paragraph (Z) of rule 3745-22-01 of the Administrative Code, "referenced materials."]

(A) To apply for an asbestos hazard abatement project designer certificate, a person shall submit an application in accordance with rule 3745-22-03 of the Administrative Code. The application for an asbestos hazard abatement project designer certificate shall include the following:

- (1) Name, last four digits of social security number, date of birth, and mailing address of applicant.
- (2) Employer's name and mailing address.
- (3) Business and home telephone number.
- (4) Name and location of asbestos training courses with attached copies of certificates.
- (5) List of any asbestos licenses or certificates the applicant holds or has held in any other state.
- (6) Information regarding any felony convictions under any state or federal law designated to protect the environment.

(B) To become certified and to maintain a certificate under this rule, an asbestos hazard abatement project designer shall meet the following criteria:

- (1) Have submitted a completed application on a form prescribed by the director.
- (2) Paid the fee required by rule 3745-22-03 of the Administrative Code.
- (3) Provided documentation of satisfactory completion of a training course for asbestos hazard abatement project designers approved by the director pursuant to rule 3745-22-07 of the Administrative Code and of receiving a passing score of at least seventy per cent on an approved examination.
- (4) For renewal of certification, satisfactorily completed an annual refresher training course approved by the director pursuant to section 3710.10 of the Revised Code and rule 3745-22-07 of the Administrative Code.

(C) An asbestos hazard abatement project designer engaged in the design of asbestos hazard abatement projects shall do the following:

- (1) Design each project in compliance with all procedures and methods established by Chapter 3745-20 of the Administrative Code and regulations of the United States environmental protection agency, 40 CFR Part 61, Subpart M, and 40 CFR Part 763, Subparts E and G , and the occupational safety and health administration, 29 CFR Part 1926.1101.
- (2) Design each project in writing using one or more of the following methods:

 - (a) Descriptive, defining the properties of materials and methods to be used.
 - (b) Performance, specifying the required results.
 - (c) Reference standard, requiring a process to be in accordance with established standard.
 - (d) Proprietary, specifying an actual brand name and other proprietary information.
- (3) In addition to any information required by this rule, provide the following information in each project design:

 - (a) Name and certification number of the project designer.
 - (b) Exact location of the project within the facility.
 - (c) Quantities of asbestos containing materials to be abated.
- (4) Accurately, truthfully, and competently prepare all asbestos abatement specifications, plans, contract documents, and any other professional work performed by the asbestos hazard abatement project designer in that capacity.
- (5) Notify the director, in writing, within five business days of any change which would render the information in the application for certification no longer accurate.
- (6) Possess proof of valid certification at all times while at a project site.
