

Public Notice
Availability of Draft Amended Rules for Comment
OAC Chapter 3745-23, "Nitrogen Oxide Standards"

Please note that in accordance with Ohio Revised Code (ORC) 119.032 (5-year rule review), the Ohio Environmental Protection Agency, Division of Air Pollution Control (DAPC) has reviewed the rules contained in Ohio Administrative Code (OAC) Chapter 3745-23, "Nitrogen Oxide Standards." Our review indicates that these rules remain necessary and are in need of minor amendments.

The rules in Ohio Administrative Code (OAC) Chapter 3745-23 contain requirements for how Ohio EPA will monitor for Nitrogen Oxides as part of Ohio's State Implementation Plan (SIP) for the attainment and attainment of the national ambient air quality standard (NAAQS). The planned amendments to these rules are minor, primarily administrative, and do not affect the content or intent of the rules.

As part of the rulemaking process, Ohio EPA is required to prepare and submit a Business Impact Analysis (BIA) form to Ohio's Common Sense Initiative (CSI) Office. Ohio EPA is also making this form available at this time for public review and comment.

These rules and the BIA document are available electronically for review at: <http://epa.ohio.gov/dapc/regs/regs.aspx>. See the information under the drafts and notices for OAC Chapter 3745-23. We request that you provide us with any comments you may have by **Monday, April 14, 2014**.

Please submit your comments or suggestions to the following addresses. Persons submitting comments electronically are encouraged to follow-up with a hard copy via regular mail:
