

3745-31-10 Air stationary source obligations.

(A) Compliance with other requirements

The approval to construct under this chapter shall not relieve any owner or operator of a *stationary source* of the responsibility to comply fully with applicable provisions of these rules and any other requirements under local, state or federal law.

(B) Relaxation of enforceable limitations

At such time that a particular *stationary source* or *modification* becomes a *major stationary source* or *major modification* solely by virtue of a relaxation in any enforceable limitation established after August 7, 1980, on the capacity of the *stationary source* or *modification* otherwise to emit an air pollutant, such as a restriction on hours of operation, the requirements of rule 3745-31-10 of the Administrative Code through rule 3745-31-27 of the Administrative Code shall apply to the *stationary source* or *modification* as though *construction* had not yet commenced on the *stationary source* or *modification*.
