

State Emergency Response Commission
Rule(s) Synopsis

Ohio EPA on behalf of the State Emergency Response Commission has completed a review of rule in Ohio Administrative Code (OAC) section 3750. This review also serves as the fulfillment of the 5-year review for OAC 3750-30-20 and 3750-50-01 under ORC 106.03. Ohio EPA identified the following changes as necessary:

Amended

OAC 3750-30-25, "Identification of Hazardous Chemicals." The rule was amended in order to incorporate basic incorporation by reference language at the beginning of the rule. The rule cites Title 29 C.F.R. 1910.1200 in (A)(1) of the rule.

OAC 3750-50-01, "Annual Inventory Filing Fees and Form." The rule as amended to fix a rule citation that still existed in error due to the cited rule having been previously rescinded. The reason for the rule being rescinded was that its language was incorporated into another rule. This amendment fixes that language transfer into the other rule.
