

*****RESCIND- NOT FOR FILING*****

~~3745-34-10 — Waiver of requirement by director.~~

- ~~(A) When injection does not occur into, through or above an underground source of drinking water, the director may authorize a well or project with less stringent requirements for area of review, construction, mechanical integrity, operation, monitoring, and reporting than required in this chapter or rule 3745-34-27 of the Administrative Code to the extent that the reduction in requirements will not result in an increased risk of movement of fluids into an underground source of drinking water.~~
- ~~(B) When injection occurs through or above an underground source of drinking water, but the radius of endangering influence when computed under paragraph (A) of rule 3745-34-32 of the Administrative Code is smaller or equal to the radius of the well, the director may authorize a well or project with less stringent requirements for operation, monitoring, and reporting than required in this chapter or rule 3745-34-27 of the Administrative Code to the extent that the reduction in requirements will not result in an increased risk of movement of fluids into an underground source of drinking water.~~
- ~~(C) When reducing requirements under paragraph (A) of this rule, the director shall prepare a fact sheet under rule 3745-47-06 of the Administrative Code explaining the reasons for the action. Such fact sheet shall include, but not be limited to, an explanation for the following criteria:~~
- ~~(1) Impact on the zone of endangering influence;~~
 - ~~(2) Nature and volume of injection fluid;~~
 - ~~(3) Nature of native fluids or by products of injection;~~
 - ~~(4) Potentially affected population;~~
 - ~~(5) Geology;~~
 - ~~(6) Hydrology;~~
 - ~~(7) History of the injection operation;~~
 - ~~(8) Completion and plugging records;~~
 - ~~(9) Abandonment procedures in effect at the time the well was abandoned;~~
 - ~~(10) Hydraulic connections with underground sources of drinking water;~~
 - ~~(11) Surface waste handling operations;~~
 - ~~(12) Mechanical integrity test results; and~~
 - ~~(13) Demonstration that operating, monitoring, or reporting requirements can be reduced with no adverse health or environmental impact.~~
