EMERGING RISK ISSUES IN 2012

Mike Allen

michael.allen@epa.state.oh.us

Coordination within DERR for RCRA, CERCLA and VAP Programs

- Closure Plan Review Guidance (CPRG) for RCRA Facilities
- VAP Rule updates that Tiffani spoke about
- BUSTR eligibility and possible impact
- Vapor Intrusion Guidance

CPRG and RCRA inclusion with Risk considerations in DERR

- CPRG update currently being reviewed internally with regards to updating risk issues
- Proposing to incorporate the Regional Screening Levels into the Closure guidance in order to bring the Generic Number Tables up to date with regards to toxicity and a rolling generation
- Reviewing the understanding of the use of the CPRG in Corrective Actions and within DERR

VAP Rule updates

- VAP Generic Numerical Standards updated
  - Goal to update toxicity changes that have occurred since the rules were last updated
  - Incorporate mutagenic changes that IRIS has adopted for some chemicals
  - Explore the possible use of an alternative generation procedure

BUSTR Tank Eligibility within the VAP

- BUSTR Standards with new eligibility..
  - Use of TGC VA30008.09.001 (Application of GNS) is not impacted by eligibility and TGC VA30008.09.004 (Cumulative Adjustment) should remain the same as well.
  - BUSTR rule updated being reviewed for possible confounding factors.

Vapor Intrusion Guidance

- Expecting the issuance of USEPA VI guidance and will update Ohio EPA guidance following an understanding and a determination of both.
