Scope. This certificate applies only to the Ohio EPA Voluntary Action Program. The certified laboratory identified herein is authorized to perform analyses in support of no further action letters for the analytes, parameter groups, and methods which are identified on the face of this certificate in order to produce certified data, so long as this certificate remains effective. The laboratory may produce certified data when it performed the analyses consistent with the standard operating procedures and quality assurance program plan, as approved, or as revised following the review process required by OAC rule 3745-300-04(G). For parameter groups, this certificate authorizes analysis of only those compounds listed in the methods identified.

** This certificate authorizes the laboratory to perform analysis of Asbestos in accordance with its accreditation under the National Institute of Standards and Technology (NIST), National Voluntary Laboratory Accreditation Program (NVLAP), and those documents approved for the analysis of soil and water media under the Voluntary Action Program. The laboratory's authorization to perform analysis of Asbestos under this certificate is conditioned on continued accreditation under NIST NVLAP.

*** This certificate authorizes the laboratory to perform analyses on air and soil gas media for Semi-Volatile Compounds, as well as, soil and water media. This certification is conditioned on the laboratory performing the analyses in accordance with the identified method listed on the front of the certificate and the laboratory's SOP approved for such analyses (and any SOP revisions for which the laboratory requests and receives prior agency approval under OAC 3745-300-04).

**** This certificate authorizes the laboratory to perform analyses on air and soil gas media for Mercury, as well as, soil media. This certification is conditioned on the laboratory performing the analyses in accordance with the method listed on the front of the certificate and the laboratory's SOP approved for such analyses.

The laboratory may only perform analysis of Total Petroleum Hydrocarbons when consistent with OAC rule 3745-300-08(B)(3), which refers to BUSTR standards under ORC 3737.882(B), and OAC rule 3745-300-09.

Limitation. This certificate does not apply to any other Ohio EPA program, or federal laboratory certification or accreditation program, nor does it serve any purpose other than that described in the "Scope" section. This certificate does not authorize for the analysis of compounds which may meet a general criteria or description provided for in such methods, but are not listed. This certificate is subject to renewal under OAC rule 3745-300-04.

Obligations. As a condition of certification, the certified laboratory accepts all obligations and responsibilities of a certified laboratory in the Voluntary Action Program, as set forth in ORC chapter 3746 and OAC chapter 3745-300, including compliance with the standards of performance and conduct for maintaining certification under OAC rule 3745-300-04(H). The certified laboratory must display the original certificate in a prominent location on its premises.

Revocation or Suspension. This certificate is subject to suspension or revocation in accordance with OAC rule 3745-300-04(O). The authorization provided by this certificate ceases upon the effective date of the suspension or revocation.

This certificate is the property of Ohio EPA and must be surrendered to Ohio EPA upon the revocation or suspension of the laboratory's certification.
