

3745-65-94

**Recordkeeping and reporting.**

(A) Unless the ground water is monitored to satisfy the requirements of paragraph (D)(4) of rule 3745-65-93 of the Administrative Code, the owner or operator ~~shall~~must:

- (1) Keep records of the analyses required in paragraphs (C) and (D) of rule 3745-65-92 of the Administrative Code, the associated ground water surface elevations required in paragraph (E) of rule 3745-65-92 of the Administrative Code, and the evaluations required in paragraph (B) of rule 3745-65-93 of the Administrative Code throughout the active life of the facility, and, for disposal facilities, throughout the post-closure care period as well; and
- (2) Report the following ground water monitoring information to the director, on the form provided by the director:
  - (a) During the first year when initial background concentrations are being established for the facility: ~~concentrations~~Concentrations or values of the parameters listed in paragraph (B)(1) of rule 3745-65-92 of the Administrative Code for each ground water monitoring well within fifteen days after completing each quarterly analysis. The owner or operator ~~shall~~must separately identify for each monitoring well any parameters whose concentration or value has been found to exceed the maximum contaminant levels listed in the appendix to rule 3745-65-92 of the Administrative Code.
  - (b) Annually: Concentrations or values of the parameters listed in paragraph (B)(3) of rule 3745-65-92 of the Administrative Code for each ground water monitoring well, along with the required evaluations for these parameters under paragraph (B) of rule 3745-65-93 of the Administrative Code. The owner or operator ~~shall~~must separately identify any significant differences from initial background found in upgradient wells, in accordance with paragraph (C)(1) of rule 3745-65-93 of the Administrative Code. During the active life of the facility, this information ~~shall~~must be submitted ~~as part of the annual report required under rule 3745-65-75 of the Administrative Code~~no later than March first following each calendar year.
  - (c) ~~As part of the annual report required under rule 3745-65-75 of the Administrative Code: results~~No later than March first following each calendar year: Results of the evaluation of ground water surface elevations under paragraph (F) of rule 3745-65-93 of the Administrative Code, and a description of the response to that evaluation, where applicable.

(B) If the ground water is monitored to satisfy the requirements of paragraph (D)(4) of rule 3745-65-93 of the Administrative Code, the owner or operator ~~shall~~must:

- (1) Keep records of the analyses and evaluations specified in the plan, which satisfy the requirements of paragraph (D)(3) of rule 3745-65-93 of the Administrative Code, throughout the active life of the facility, and, for disposal facilities, throughout the post-closure care period as well; and
- (2) Annually, until final closure of the facility, submit to the director a report containing the results of the ground water quality assessment program which ~~include~~includes, but is not limited to, the calculated (or measured) rate of migration of hazardous waste or hazardous waste constituents in the ground water during the reporting period. ~~This report shall be submitted as part of the annual report required under rule 3745-65-75 of the Administrative Code.~~This information must be submitted, on the form provided by the director, no later than March first following each calendar year.
