Modified Hazardous Waste Permit

Mr. G. Michael Darr
Premcor BP Lima Refinery
1150 South Metcalf Street
Lima, Ohio 45804-1199

Dear Mr. Darr:

On February 17, 2004, Ohio EPA received Premcor/ BP Lima Refinery's request for a new facility operator as a result of BP Chemicals, Inc. merging with BP Amoco Chemical Company. For this modification, BP Chemicals, Inc. submitted a Class 3 modification application¹. The Agency did not receive written comments concerning this Class 3 modification application. I have enclosed the final modified Ohio hazardous waste facility installation and operation permit (Permit) that was issued by the director today. Please note that the modified Permit remains in effect until it is renewed, withdrawn, suspended or revoked.

You have the right to appeal this Permit decision to the Environmental Review Appeals Commission (ERAC) no later than 30 days after the public notice (See Ohio Revised Code § 3745.04). You may file your appeal with ERAC at the following address: Environmental Review Appeals Commission, 309 South Fourth Street, Room 222, Columbus, Ohio 43215.

If you file an appeal, you must put it in writing. Your appeal must explain why you are appealing the action and the grounds you are using for your appeal. You must send a copy of the appeal to the director of the Ohio Environmental Protection Agency no later than three (3) days after you file it with ERAC.

¹Ohio EPA assigned tracking # 040217-3A-1to this modification application.

Bob Taft, Governor
Bruce Johnson, Lieutenant Governor
Joseph P. Koncelik, Director

PUBLIC NOTICE

Allen County

OHIO EPA ISSUES FINAL HAZARDOUS WASTE PERMIT MODIFICATIONS

On February 9, 2005, Ohio EPA issued two final modified hazardous waste facility installation and operation permits (Permit). One was issued to BP Chemicals, Inc, for its facility at 1900 Fort Amanda Road, Lima, Ohio 45802. The EPA Identification Number for this facility is OHD042157644. The second was issued to Premcor/BP Refinery for its facility located at 1150 South Metcalf Street, Lima, Ohio 45804. The EPA Identification Number for this facility is OHD005051826.

Why do BP Chemicals, Inc., and Premcor/BP Lima Refinery need these permit Modifications?

BP Chemicals, Inc., is a permitted hazardous waste facility which manufactures acrylonitrile, acetonitrile, hydrogen cyanide, acrylonitrile catalyst, and a resin product known as Barex. The BP Chemicals facility is authorized for the following hazardous waste activities: container storage, tank storage and treatment, filter press treatment, corrective action, and closure care. The Premcor/BP Lima Refinery, which manufactures petroleum products, is also permitted but is currently conducting corrective action and closure/post-closure activities. Both facilities request for a new facility operator as a result of BP Chemical, Inc. merging with BP Amoco Chemical Company on December 31, 2003. These final modified Permits will allow both facilities to make the requested changes. To issue these final modified Permits, Ohio EPA determined that the modification applications are complete and meets appropriate standards.

Can I appeal these final modified Permits?

Yes, if you are an officer of an agency of the state or of a political subdivision, acting in a representative capacity, or any person who would be aggrieved or adversely affected by these modified Permits, you have the right to appeal these Permit decisions to the Environmental Review Appeals Commission (ERAC).

If I decide to appeal these final modified Permits, how and when must I make the appeal?

If you file an appeal, you must put it in writing no later than **March 11, 2005**. Your appeal must explain why you are appealing the action and the grounds you are using for your appeal. You must file your appeal, according to Ohio Revised Code §§ 3745.04 and 3745.07, with ERAC at the following address: **Environmental Review Appeals Commission**, 309 South Fourth Street, Room 222, Columbus, Ohio 43215. You must send a copy of the appeal to the director of Ohio EPA at the following address no later than three (3) days after you file it with ERAC: **Joseph P. Koncelik, Director of Ohio EPA**, P.O. Box 1049, Columbus, Ohio 43216-1049.

OHIO E.P.A.
FEB - 9 2005
ENTERED DIRECTOR'S JOURNAL

This Modified Ohio Hazardous Waste Facility Installation and Operation Permit is issued pursuant and subject to Section 3734.05(I) of the Ohio Revised Code and Rule 3745-50-51(D) of the Ohio Administrative Code.

The Ohio Hazardous Waste Facility Installation and Operation Permit with the above-referenced permit number as issued by the Ohio Environmental Protection Agency and journalized on June 20, 2003, is hereby incorporated by reference in its entirety, except as it may be modified herein.

This modification of the permit shall remain in effect until such time as the Ohio Hazardous Waste Facility Installation and Operation Permit is renewed, modified, withdrawn, suspended or revoked.

The Permittee shall comply with all requirements of the modified Part B permit application as amended or supplemented on February 17, 2004, and March 15, 2004. The information contained in the modified Part B permit application is incorporated herein by reference. Specifically, all written statements regarding the specifications, locations or capabilities of the processes, equipment, containment devices, safety devices or programs or other matters made by the applicant in the permit modification application are hereby incorporated as express, binding terms and conditions of this modified permit.

I certify this to be a true and accurate copy of the original document as filed in the records of the Ohio Environmental Protection Agency.

Donna Jackson 2/9/05

The modified Terms and Conditions of this permit are attached hereto and are incorporated herein by reference. The modified Terms and Conditions supersede and replace the corresponding pages found in the June 20, 2003, renewal permit.

AUTHORIZED ACTIVITIES

In reference to the application of BP Products North America/Premcor Refining Group, Inc./BP Amoco Chemical Company, for an Ohio Hazardous Waste Facility Installation and Operation Renewal Permit under Ohio Revised Code (ORC) Chapter 3734 and the record in this matter, you are authorized to conduct at the above-named facility the following hazardous waste management activities:

- ◆ Post-Closure
- ◆ Corrective Action

OHIO EPA DHWM

FEB 09 2005

The Permittee must institute Corrective Action as necessary to protect human health and the environment for all releases of hazardous waste(s) or hazardous constituent(s) from any SWMUs at the Facility, regardless of the time at which waste was placed in such units.

For the purposes of SWMU 68, Old Lube Plant, the Permittee is defined as BP North America, Premcor Refining Group, Inc., and BP Amoco Chemical Company. As a result of the sale of this piece of property on August 9, 1998, BP Amoco Chemical Company is now considered to be the owner and must maintain compliance with this module. However, as Premcor Refining Group, Inc is the owner of the contiguous facility as defined in OAC Rule 3745-50-10 paragraph A(32), Premcor Refining Group, Inc. would have the ultimate responsibility for compliance with this module should BP Amoco Chemical Company fail to maintain compliance with this module.

E.2. Corrective Action Beyond the Facility Boundary
OAC Rules 3745-55-011

The Permittee must implement Corrective Action(s) beyond the Facility property boundary, where necessary to protect human health and the environment, unless the Permittee demonstrates to the satisfaction of Ohio EPA that, despite the Permittee's best efforts, the Permittee was unable to obtain the necessary permission to undertake such actions. The Permittee is not relieved of any responsibility to clean up a release that has migrated beyond the Facility boundary where off-site access is denied. On-site measures to address such releases will be addressed under the RFI, CMS, and CMI phases, as determined to be necessary on a case-by-case basis.

E.3 Identification of SWMUs
OAC Rules 3745-50-44(d) & 3745-55-011

The units or groups of units which were investigated during the Phase 1 RFI are listed in Attachment 2.

E.4 Reserved.
