Mr. Joseph Bianco  
BP Amoco Chemical Company  
1900 Fort Amanda Road  
P.O. Box 628  
Lima, Ohio 45802-0628

Dear Mr. Bianco:

On October 8, 2004, Ohio EPA received BP Amoco Chemical Company's (BP Chemical) request to replace the Ground-Water Monitoring Plan for the Land Disposal Cells Revision 5 with Revision 6. The entire ground-water monitoring plan has been revised to reflect the change in status of wells 91-T2, 91-T6, 91-T10, and 91-T13 from monitoring wells to piezometers. Additionally, the ground water monitoring plan has been revised to reflect the facility's change in ownership from BP Chemicals Inc. to BP Amoco Chemical Company. For this modification, BP Chemicals submitted a Class 2 modification application<sup>1</sup>. The Agency did not receive any verbal or written comments concerning this Class 2 modification application. I have enclosed the final modified Ohio hazardous waste facility installation and operation permit (Permit) that was issued by the director today. Please note that the modified Permit remains in effect until it is renewed, withdrawn, suspended or revoked.

You have the right to appeal this Permit decision to the Environmental Review Appeals Commission (ERAC) no later than 30 days after the public notice (See Ohio Revised Code § 3745.04). You may file your appeal with ERAC at the following address: Environmental Review Appeals Commission, 309 South Fourth Street, Room 222, Columbus, Ohio 43215.

If you file an appeal, you must put it in writing. Your appeal must explain why you are appealing the action and the grounds you are using for your appeal. You must send a copy of the appeal to the director of the Ohio Environmental Protection Agency no later than three (3) days after you file it with ERAC.

<sup>1</sup>Ohio EPA assigned tracking # 041008-2-1 to this modification application.
