**12.** Have all hazardous wastes shipped off-site been accompanied by a manifest? (U.S. EPA Form 8700-22) [3745-52-20(A)(1)]

**13.** Have items (1) through (20) of each manifest been completed? [3745-52-20(A)(1)]&[3745-52-27(A)]

**14.** Does each manifest designate at least one facility which is permitted to handle the waste? [3745-52-20(B)]

**NOTE:** The generator may designate on the manifest one alternate facility to handle the waste in the event of an emergency which prevents the delivery of waste to the primary designated facility. [3745-52-20(C)]

**15.** If the transporter was unable to deliver a shipment of hazardous waste to the designated facility, did the generator designate an alternate TSD facility or give the transporter instructions to return the waste? [3745-52-20(D)]

**16.** Have the manifests been signed by the generator and initial transporter? [3745-52-23(A)(1)]&[2(2)]

**NOTE:** Waste generated at one location and transported along a publicly accessible road for temporary consolidated storage or treatment on a contiguous property also owned by the same person is not considered “on-site” and manifesting and transporter requirements must be met. To transport “along” a public right-of-way the destination facility has to act as a transfer facility or have a permit because this is considered to be “off-site.” For additional information see the definition of “on-site” in OAC rule 3745-50-10.
