**Subject: HW Permit Modification - Class 1 Acknowledgment**

Dear Mr. Lonneman:

On December 6, 2013, Ohio EPA received a notification for a Class 1 hazardous waste permit modification from Vickery Environmental, Inc. With this letter, Ohio EPA acknowledges the above referenced Class 1 modification submitted pursuant to Ohio Administrative Code (OAC) Rule 3745-50-51, and accordingly has updated the facility's Part B permit application and permit.

The modification contained administrative and informational changes to update language regarding "off-hours" unloading and to conform to the biennial reporting requirement was assigned a modification tracking number of 131206-1-1.

Attached is a copy of the revised permit terms and conditions . This has been included to ensure that all involved parties have written confirmation of the changes. If you have any questions concerning this action, please contact Gary Deutschman at the Ohio EPA Northwest District Office (419-373-3056) or Mary Ann Miller at the Vickery on-site office (419-547-6033).

Ohio EPA has developed a customer service survey to get feedback from regulated entities that have contacted Ohio EPA for regulatory assistance, or worked with the Agency to obtain a permit, license or other authorization.

Mr. Steve Lonneman

Ohio EPA's goal is to provide our customers with the best possible customer service, and your feedback is important to us in meeting this goal. Please take a few minutes to complete this survey and share your experience with us at <http://www.surveymonkey.com/s/ohioepacustomersurvey>.

Sincerely,

John Pasquarette  
Manager, Northwest District Office  
Division of Materials and Waste Management

\*Also, in accordance with Ohio Administrative Code Rule 3745-50-51(D)(1)(a)(ii), the Permittee must send a notice within 90 days of an approved Class 1A Modification to all persons on the Agency mailing list. An updated mailing list can be obtained by contacting Laura Morgan, Authorizing Actions & Engineering Unit at (614) 644-2944, or by e-mail at [laura.morgan@epa.state.oh.us](mailto:laura.morgan@epa.state.oh.us).

## MODULE B - GENERAL FACILITY CONDITIONS

### B. GENERAL FACILITY CONDITIONS

#### B.1 Design and Operation of Facility OAC Rule 3745-54-31

- (a) The Permittee must design, construct, maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, ground water or surface waters which could threaten human health or the environment.
- (b) The Permittee must not accept more than 630,500 tons (Basis: 126,000,000 gallons converted to tons based on a specific gravity of 1.2. This annual throughput number reflects the limitation found in the underground injection control permit.) in any one calendar year, but not to exceed 650,500 gallons per day, from off-site sources during the life of the permit, until such time as this permit condition is modified or renewed. This is a facility wide limitation and includes all units.
- (c) Operating Hours
  - (i) The Facility's "normal operating hours" are 7:00 a.m. to 11:00 p.m.
  - (ii) "Off-hours" are the hours of 11:00 p.m. to 7:00 a.m.
  - (iii) The Permittee may receive and accept waste, but not unload waste during "off-hours", as long as such receipts are recorded in the facility's operating record.
  - (iv) The Permittee may unload during "off-hours" with prior written authorization from the Northwest District.
  - (v) The Permittee may continue to unload waste during "off-hours" if unloading started during normal operating hours.

- (vi) The Permittee may begin waste unloading during "off-hours" in those instances when, through no fault of the Permittee, the generator and/or transporter experiences some unforeseen circumstance and/or emergency which would not allow the waste to be unloaded during normal operating hours. All permit requirements must be followed for waste unloading during "off-hours" and the Permittee must provide the Northwest District with prior notification. If no one is present at the district office or at the on-site inspector office at the time the notification is made, the notification may be made by e-mail or voicemail.

**B.2 Required Notices**  
OAC Rule 3745-54-12

(a) Hazardous Waste from Off-Site Sources

When the Permittee is to receive hazardous waste from an off-site source (except where the Permittee is also the generator), the Permittee must inform the generator in writing that the Permittee has the appropriate permits, and will accept the waste the generator is shipping. The Permittee must keep a copy of this written notice as part of the operating record.

(b) Hazardous Wastes from Foreign Sources

The Permittee must notify the regional administrator of U.S. EPA in writing at least four weeks in advance of the date the Permittee expects to receive hazardous waste from a foreign source, as required by OAC Rule 3745-54-12(A). Notice of subsequent shipments of the same waste from the same foreign source is not required.

**B.3 General Waste Analysis Plan**  
OAC Rule 3745-54-13

- (a) Before an owner or operator treats, stores, or disposes of any hazardous wastes, or nonhazardous wastes if applicable under OAC Rule 3745-55-13(D), the Permittee must obtain a detailed chemical and physical analysis of a representative sample of the wastes. At a minimum, this analysis must contain all the information which must be known to treat, store, or dispose of the waste in accordance with the requirements of Chapters 3745-54 to 3745-57, 3745-205, and 3745-270 of the Administrative Code.

**B.22 Operating Record**  
OAC Rule 3745-54-73

The Permittee must comply with the requirements set forth in OAC Rule 3745-54-73 regarding an operating record, including information to be recorded and the maintenance thereof.

**B.23 Contingency Plan Records**  
OAC Rule 3745-54-56(l)

The Permittee must note in the operating record the time, date, and details of any incident that requires the implementation of the contingency plan. Within fifteen (15) days after any such incident the Permittee must submit to the Director a written report of the incident containing the elements set forth in OAC Rule 3745-54-56(l).

**B.24 Manifest System**  
OAC Rules 3745-54-70, 3745-54-71, 3745-54-72 and 3745-54-76

- (a) In managing waste at the facility the Permittee must comply with OAC Chapter 3745-52 and OAC Rules 3745-54-71, 3745-54-72 and 3745-54-76 with regard to the manifest system.
- (b) Manifest discrepancy report. If a significant discrepancy in a manifest is discovered, the Permittee must attempt to reconcile the discrepancy. If not resolved with fifteen (15) days after receiving the waste, the Permittee must submit a letter describing the discrepancy and attempts to reconcile it, and a copy of the manifest, to the Director in accordance with OAC Rule 3745-54-72.
- (c) Unmanifested waste report. If the Permittee receives unmanifested waste which is not excluded from the manifest requirements of OAC Rule 3745-51-05, then the Permittee must submit an unmanifested waste report to the Director within fifteen (15) days after receipt of the waste. The report must include the information required under OAC Rule 3745-54-76.

**B.25 Biennial Report and Additional Reports**  
OAC Rules 3745-54-75 and 3745-54-77

The Permittee must comply with the report requirements set forth in OAC Rule 3745-54-75 and the additional report requirements set forth in OAC Rule 3745-54-77.
