RE: EAST PAD CLOSURE PLAN APPROVAL, ZACLON LLC, OHD 004 184 768

Dear Mr. Krimmel:

On November 1, 2010, Hull & Associates, Inc., on behalf of Zaclon LLC, submitted to Ohio EPA a closure plan for the East Pad Storage Unit located at 2981 Independence Road, Cleveland, Ohio. Revisions to the closure plan were received on December 23, 2010, and January 20, 2011. The closure plan was submitted pursuant to the October 8, 2009 Director's Final Findings and Orders in order to demonstrate that Zaclon LLC's proposal for closure complies with the substantive requirements of Ohio Administrative Code (OAC) rules 3745-55-11 and 3745-55-12.

The owner or operator and the public were given the opportunity to submit written comments regarding the closure plan in accordance with the hazardous waste rule requirements. No public comments were received by Ohio EPA.

Based upon review of Zaclon's closure plan and subsequent revisions, I conclude that the closure plan for the hazardous waste facility at 2981 Independence Road, Cleveland, Ohio, as modified herein, meets the performance standard contained in OAC rule 3745-55-11, and complies with the pertinent parts of OAC rule 3745-66-12.

The closure plan submitted to Ohio EPA on November 1, 2010 and revised on December 23, 2010, and January 20, 2011, for Zaclon is hereby approved with the following modifications:

1. Section 7.1. This section is modified to state that an assigned Hull project representative will be on-site to document that all closure activities were conducted in accordance with the approved closure plan.
2. Section 10.2. The second paragraph is modified to state that "the wash water and decon water will be disposed into a *holding tank that is part of the WWTP or disposed directly into an on-site drain after confirming via dye testing that the drain is connected to the WWTP.*"

Jim Krimmel, President
Zaclon LLC

3. Sections 15.1 and 15.2. These sections are modified to state that the closure cost estimate and financial assurance mechanism will be submitted within 30 days after approval of the closure plan.
4. Section 16.0. This section is modified to remove the signature of the Professional Engineer. The certification statement should be signed and stamped by the Professional Engineer and the owner or operator of Zaclon after completion of closure activities.

Compliance with the approved closure plan, including the modifications specified herein, is expected. Ohio EPA will monitor such compliance. Ohio EPA expressly reserves the right to take action, pursuant to chapters 3734. and 6111. of the Ohio Revised Code, and other applicable law, to enforce such compliance and to seek appropriate remedies in the event of noncompliance with the provisions and modifications of this Approved Closure Plan. Please be advised that approval of this closure plan does not release Zaclon from any responsibilities regarding corrective action for all releases of hazardous waste or constituents from any waste management unit, regardless of the time at which waste was placed in the unit.

You are hereby notified that this action of the director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Treasurer, State of Ohio" which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
309 South Fourth Street, Room 222
Columbus, Ohio 43215

When closure is completed, OAC rule 3745-55-15 requires the owner or operator of a facility to submit to the director of Ohio EPA, certification by the owner or operator and a qualified professional engineer, that the facility has been closed in accordance with the approved closure plan. The certification by the owner or operator shall include the statement found in OAC rule 3745-50-42(D). These certifications should be submitted to:

Jeremy A. Carroll, P.E., Manager
Ohio Environmental Protection Agency
Division of Hazardous Waste Management
Regulatory and Information Services Section
P.O. Box 1049
Columbus, Ohio 43216-1049

A copy should also be sent to:

Ohio Environmental Protection Agency
Division of Hazardous Waste Management
Attn: Karen Nesbit
2110 East Aurora Road
Twinsburg, Ohio 44087

Ohio EPA's Division of Hazardous Waste Management strongly encourages you to consider pollution prevention options for any processes at your facility that generate waste. While implementation of pollution prevention options is not required by Ohio laws and regulations, the application of waste minimization practices may help reduce the expense of remedial activities. Additionally, implementation of pollution prevention options may prevent the creation of new units and as a result eliminate the requirement to submit a closure plan in the future. For assistance in identifying and implementing pollution prevention options or if you have any questions about implementing this closure plan, contact Karen Nesbit at (330) 963-1159.

Sincerely,

Scott J. Nally
Director, Ohio EPA
