

District Solid Waste Management Plan Format

District Solid Waste Management Plan Format

The new version of the format:

- ✓ Simplifies structure and flow of a plan
- ✓ Streamlines managing data
- ✓ Improves format as a planning tool

Putting the plan together is easier and frees up time to do more thoughtful and thorough planning.

Simplified Structure and Flow

Two distinct parts:

- 1) 6 concise, easy to read chapters
 - ✓ Audiences are general public and elected officials
 - ✓ Combination of standard and original text

... like an executive summary

- 2) Series of appendices
 - ✓ Audience is Ohio EPA
 - ✓ Contain data and detailed information

...compartmentalizes the technical stuff

Streamline Managing Data

Use a Microsoft Excel workbook to manage data

	A	B	C	D	E	F

Improve Format as a Planning Tool

Provides a “module” for strategic analyses

- ✓ SWMDs will perform 13 analyses (each is kind of like a mini-study)
- ✓ Format provides **LOTS** of prompts for things to consider
- ✓ Use the results of the analyses to make decisions
- ✓ Analyses help tailor plan to local conditions/needs

The Strategic Planning Process

Analyses
(What do we need to know?)

Conclusions
(What did we learn?)

Actions
(What could we do?)

Priorities
(What will we do?)

Programs
(How will we do it?)

The Next Steps

Transition to providing support...

-  Finalize the workbook and instructions
-  Publish Format 4.0 as an official document
-  Conduct training
-  Continued support and initiatives
