Local SWMD Planning & Plans

Solid Waste Planning is a Process

Proposed Legislative Planning Changes

Intent

- Simplify & Streamline
- Reduce Time to complete Process
- Add Flexibility
- Clean up unnecessary and confusing items

Proposed Legislative Planning Changes

Current System

- Solid Waste Management Plans Must Cover at Least 10 years, but can cover 15 years or more
- SWMDs Submit Plan Updates every 3 or 5 years, depending on length of plan
 - Entire process results in 4.5 – 6.5 cycle between approved plans
- Submit Plan to Ohio EPA first as a draft, then as final for Approval (or disapproval)
- Failure to get approval by a certain date triggers Ohio EPA writing of the Plan

Proposed Legislative Planning Changes

- All SWMDs Write 10 year Plans
- No Required Start Date for Plan Update Process
- 5.5 Yr Cycle (was either 4.5 & 6.5)
- Standardize Ohio EPA review time to 60 days for both draft and final plans (was 45 & 90 days)
- Allow SWMDs 60-day extensions for deadlines
- Clarify Public Noticing Requirements
- Miscellaneous language clarification and clean-up
