**Subject: American Landfill, Stark County
Ohio Administrative Code (OAC) Rule 3745-27-10(D)(7)(c)(ii) Approval**

Dear Mr. Ali:

On March 10, 2014, the Ohio Environmental Protection Agency (Ohio EPA), Division of Materials and Waste Management (DMWM), Northeast District Office (NEDO), received a document titled "2013 Second Semiannual Groundwater Monitoring OAC Rule 3745-27-10(D)(7)(c)(ii) Demonstration," dated March 7, 2014, for American Landfill (Facility) located in Stark County. This document was submitted by Eagon and Associates, on behalf of the Facility, and contains the ground water sampling results and the statistical analysis from the October 21 and November 25, 2013, ground water sampling events at the Facility.

According to the document, analysis of the ground water detection monitoring data indicated that the following statistically significant changes were detected: Chloride and Sodium in monitoring well AMW-4; Chloride, Potassium, and Sodium in monitoring well LKC-4; Benzene in monitoring well PHL/BC-4; and, Arsenic and Barium in monitoring well PHL/BC-22.

Pursuant to OAC Rule 3745-27-10(D)(7)(c)(ii), the owner or operator may demonstrate that a source other than the sanitary landfill facility caused the contamination, or that the statistically significant change resulted from error in sampling, analysis, or statistical evaluation or natural variation in ground water quality. A report documenting this demonstration must be submitted to and approved by Ohio EPA. If the owner or operator does not obtain approval to continue detection monitoring not later than two hundred ten (210) days from initial sampling, the owner or operator is required to comply with the provisions of OAC Rule 3745-27-10(E) for ground water quality assessment monitoring.

The March 7, 2014 document concluded that the statistically significant changes for Chloride and Sodium in monitoring well AMW-4; Benzene in monitoring well PHL/BC-4; and, Arsenic and Barium in monitoring well PHL/BC-22 were due to natural and spatial variability in ground water quality within the Uppermost Aquifer System (UAS) and the Significant Zone of Saturation (SZS), statistical

analysis, or an alternative source and not as a result of impact from the landfill. Monitoring wells AMW-4, PHL/BC-4, and PHL/BC-22 were initially sampled on October 21, 2013.

Ohio EPA has reviewed the applicable information and concurs with the demonstration included in the March 7, 2014 document. Therefore, pursuant to OAC Rule 3745-27-10(D)(7)(c)(ii), the owner or operator is hereby authorized to continue the detection monitoring program at the Facility for monitoring wells AMW-4, PHL/BC-4, and PHL/BC-22.

The demonstration for ground water monitoring well LKC-4 will be addressed in a separate correspondence.

Should future or existing ground water sampling results indicate statistically significant changes in ground water monitoring parameters, the owner or operator will be required to either enter into assessment monitoring in accordance with OAC Rule 3745-27-10(E) or obtain approval to remain in the detection monitoring program.

You are hereby notified that this action of the Director of Environmental Protection (Director) is final and may be appealed to the Environmental Review Appeals Commission pursuant to Ohio Revised Code Section 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce the fee if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
77 South High St., 17th Floor
Columbus, Ohio 43215

If you have any questions concerning this action, please contact Joshua Adams, DMWM, NEDO at (330) 963-1103.

Sincerely,

Kurt M. Princic,
Chief, Northeast District Office
