Minerva, OH 44657

**RE:** Final Permit to Install #02-22464  
Liberty Tire Services of Ohio, LLC,  
Class I Recovery Facility

Dear Sir or Madam:

The Ohio Environmental Protection Agency, pursuant to Ohio Administrative Code Rule 3745-27-02 and the rules adopted thereunder, has reviewed the application for a permit with accompanying detail plans, specifications and/or information (hereinafter referred to as "application") regarding the above-referenced facility. This application has been approved by the Director subject to the conditions of compliance contained in the permit approval enclosed herewith and with all applicable laws, rules and standards. All construction must be supervised by an engineer or expert qualified in such work. Because the permit approval contains conditions of compliance, I urge you to read it carefully.

You are requested to submit within thirty (30) days of the date of issuance of this Permit to Install, the required permit fee balance of six hundred dollars (\$1,000.00 - \$400.00 application fee = \$600.00), payable to **Treasurer, State of Ohio**. Please send the required payments to:

Ohio Environmental Protection Agency  
Permit to Install Fee  
Dept L-2711  
Columbus, OH 43260-2711

Payment of the \$600.00 fee within 30 days is a requirement of ORC Sections 3745.11 (Q) and (V). Failure to timely submit the required permit fee will result in an assessment of late penalties.

You are hereby notified that this action of the Director of Environmental Protection (Director) is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed with the Appeals Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce the fee if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed at the following address:

Environmental Review Appeals Commission  
77 South High Street  
17<sup>th</sup> Floor  
Columbus, Ohio 43215

If you have any questions, please contact the Ohio EPA District Office to which you submitted your application.

Sincerely,

Georgia Frakes, Management Analyst  
Division of Materials and Waste Management

Permit: Class I Scrap Tire Recovery Facility

Issuance Date: October 3, 2013

Effective Date: October 3, 2013

The above-named entity is hereby issued a permit-to-install (permit) for the above-described source pursuant to Ohio Administrative Code (OAC) Rule 3745-27-02. Issuance of this permit does not constitute expressed or implied approval or agreement that, if constructed and/or modified in accordance with the plans, specifications, and/or information accompanying the permit application, the above-described source of environmental pollutants will operate in compliance with applicable state and federal laws, rules, and regulations, and does not constitute expressed or implied assurances that, if constructed and/or modified in accordance with those plans, specifications, and/or information accompanying the permit application, the above-described source of environmental pollutants will be granted the necessary operating permits and/or licenses. This permit is issued subject to the attached conditions which are hereby incorporated and made a part hereof.

Ohio Environmental Protection Agency

I certify this to be a true and accurate copy of the official documents as filed in the records of the Ohio Environmental Protection Agency.

By:  Date: 10-3-13

## PERMIT SUMMARY

This is a final permit-to-install (PTI Number 02-22464) to establish the existing Liberty Tire Services of Ohio, LLC Class II Recovery Facility as a Class I scrap tire recovery facility. The Liberty Tire Services of Ohio, LLC Class I Recovery Facility (Facility) will continue to be operated by Liberty Tire Services of Ohio, LLC dba Liberty Tire Recycling, LLC.

This permit grants Liberty Tire Services of Ohio, LLC an exemption from OAC Rule 3745-27-62(F)(5), which prohibits the storage of more than 20,000 square feet of whole scrap tires and 40,000 square feet of processed scrap tires.

This summary is provided solely for informational purposes and does not constitute a part of, or otherwise affect, the attached permit.

## PERMIT CONDITIONS

1. The Facility's daily design input capacity (DDIC) is 500 tons/day, as established in this permit.
2. The Director of the Ohio Environmental Protection Agency (Director), or an authorized representative, may enter upon the premises of the above-named applicant (permittee) at any reasonable time during operation for the purpose of making inspections, conducting tests, or examining records or reports pertaining to the above-described source of environmental pollutants (class I scrap tire recovery facility).
3. The Facility shall be constructed and operated in strict accordance with the plans, specifications, and information submitted to Ohio EPA which constitute this permit. There shall be no deviation from the approved permit or permit conditions without the express, written approval of the Ohio Environmental Protection Agency (Ohio EPA). Any deviation from the approved permit or the permit conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the Facility will operate in compliance with all Ohio laws and regulations.
4. Issuance of this permit does not relieve the permittee of the duty to comply with all applicable federal, state, and local laws, ordinances, and regulations.
5. This permit shall apply only to those facilities shown on the plans, specifications, and information submitted as part of PTI Application Number 02-22464, received January 4, 2007 and revised through July 25, 2013. This permit supersedes the existing registration for the Liberty Tire Services of Ohio, LLC Class II Recovery Facility dated December 18, 2003.

6. This permit may be modified, or alternatively revoked and reissued, to comply with any revisions to OAC Chapter 3745-27 applicable to this class I scrap tire recovery facility.
7. The permittee shall provide for the proper maintenance and operation of the Facility in accordance with the provisions of OAC Chapter 3745-27.
8. This permit does not authorize the acceptance of any solid waste other than scrap tires for the purpose of processing. "Scrap tire," as defined in OAC Rule 3745-27-01(S)(6), is a type of solid waste and means any unwanted or discarded tire, regardless of size, that has been removed from its original use. "Scrap tire" includes all whole scrap tires and pieces of scrap tires which are readily identifiable as parts of scrap tires by visual inspection.
9. Prior to commencement of construction or any other activities authorized by this permit, the permittee shall execute and fund a new financial assurance instrument in accordance with OAC Rules 3745-27-15, 3745-27-16, and 3745-27-17 for the current cost estimates of the Facility.
10. Nothing in this permit shall be construed to authorize any waiver from the requirements of any applicable federal or state laws or regulations except as specified herein. This permit shall not be interpreted to release the permittee from responsibility under ORC Chapters 3704, 3714, 3734, or 6111; under the Federal Clean Water Act, the Resource Conservation and Recovery Act, or the Comprehensive Environmental Response, Compensation, and Liability Act; or from other applicable requirements for remedying conditions resulting from any release of contaminants to the environment.

**END OF PERMIT CONDITIONS**

## EXEMPTION

### Exemption from OAC Rule 3745-27-62(F)(5)

The permittee has requested an exemption from OAC Rule 3745-27-62(F)(5), which limits the storage area of whole scrap tires to 20,000 square feet and processed scrap tires to 40,000 square feet. Liberty Tire has requested to store 28,500 square feet of whole tires and 43,570 square feet of processed scrap tires

Pursuant to ORC Section 3734.02(G), the director may, by order, exempt any person generating, collecting, storing, treating, disposing of, or transporting solid wastes, or processing solid wastes that consist of scrap tires, in such quantities or under such circumstances that, in the determination of the director, are unlikely to adversely affect the public health or safety or the environment from any requirement to obtain a registration certificate, permit, or license or comply with other requirements of ORC Chapter 3734.

Liberty Tire Services of Ohio, LLC has demonstrated there is enough land to accommodate the tire storage area requested while still maintaining proper fire lanes. Therefore, granting an exemption from the requirement of OAC Rule 3745-27-62(F)(5), which restricts the amount of storage permitted at a Class I scrap tire recovery facility, is unlikely to adversely affect the public health or safety or the environment. Therefore, pursuant to ORC Section 3734.02(G), the permittee is hereby exempted from the requirement of OAC Rule 3745-27-62(F)(5). The permittee shall store scrap tires in accordance with this permit. This exemption shall remain in effect throughout the effective period of this permit unless otherwise revoked.
