**Re: Suburban Landfill, Inc., Perry County
Ohio Administrative Code (OAC) Rule 3745-27-10(E)(9)(b) Approval
OAC Rule 3745-27-10(C)(7)(g) Approval**

Dear Mr. Miller:

On February 7, 2006, the Ohio Environmental Protection Agency (Ohio EPA), Division of Solid and Infectious Waste Management (DSIWM), Southeast District Office SEDO received a document titled "Ground Water Quality Assessment Report for Well P-107(C) and Demonstration report for (E)(9) Detection Monitoring Reinstatement Request," dated February 7, 2006, for the Suburban Landfill, Inc. (Facility) located in Perry County. This document was submitted by Eagon and Associates, on behalf of Suburban Landfill, Inc., pursuant to OAC Rule 3745-27-10(E)(9)(b), and requested reinstatement of the ground water detection monitoring program for specific monitoring wells at the Facility and to release the owner or operator from the obligation to comply with the ground water quality assessment monitoring program implemented due to the detection of statistically significant changes for chloride and potassium in monitoring well P-107C during the June 21, 2005, ground water sampling event at the Facility.

Pursuant to OAC Rule 3745-27-10(E)(9)(b), the owner or operator may demonstrate that a source other than the sanitary landfill facility caused the contamination, or that the statistically significant change resulted from error in sampling, analysis, or statistical evaluation or from natural variation in ground water quality and request that the director approve reinstatement of the detection monitoring program.

The February 7, 2006, document concluded that the statistically significant changes for chloride and potassium at monitoring well P-107C were due to natural variation in ground water quality, and were not a result of impact from the landfill. Ohio EPA has reviewed the applicable information and concurs with this conclusion. Therefore, pursuant to OAC Rule 3745-27-10(E)(9)(b), I hereby approve reinstatement of the ground water detection monitoring program for the monitoring well in the ground water quality assessment monitoring program, noted above, and release the owner or operator from the obligation to comply with this assessment monitoring program at the Facility. This approval of reinstatement of the detection monitoring program applies to monitoring well P-107C.

Bob Taft, Governor
Jennette Bradley, Lieutenant Governor
Joseph P. Koncelik, Director

Mr. Daryl Miller, Suburban Landfill, Inc.
Ground water approvals
Page 2 of 2

Should future or existing ground water sampling results indicate statistically significant changes in ground water monitoring parameters, the owner or operator will be required to either enter into the ground water quality assessment monitoring program in accordance with OAC Rule 3745-27-10(E) or obtain approval to remain in the detection monitoring program pursuant to OAC Rule 3745-27-10(D)(7)(c).

This approval shall not be construed to release the owner or operator from the obligation to comply with the requirements of any other ground water quality assessment monitoring program being conducted at the Facility.

The Facility also requests the incorporation of the data from well P-107C into the background data for the Facility pursuant to OAC 3745-27-10(C)(7)(g). Ohio EPA has reviewed this request as concurs with incorporation of the data from P-107C into the background data for the Facility. Therefore, pursuant to OAC 3745-27-10(C)(7)(g), I hereby approve the incorporation of the data from well P-107C into the background data for the Facility.

You are hereby notified that this action of the Director of Ohio EPA (Director) is final and may be appealed to the Environmental Review Appeals Commission (Commission) pursuant to Ohio Revised Code Section 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed with the Commission within thirty (30) days after notice of the Director's action. A copy of the appeal must be served on the Director within three (3) days after filing with the Commission. An appeal may be filed with the Commission at the following address:

Environmental Review Appeals Commission
309 South Fourth Street
Room 222
Columbus, Ohio 43215

If you have any questions concerning this letter, please contact Dale Warner of Ohio EPA, SEDO at (740)380-5435.

Sincerely,

Mr. Steve Skinner, Chief
Southeast District Office
for Joseph P. Koncelik, Director
