**Re: Franklin County Landfill Facility, Franklin County
Ground Water Monitoring Statistical Analysis Plan Revision - Addition of
Background Data & Incorporation of Statistical Exceedances**

Dear Mr. Flory:

On November 8, 2007, the Ohio Environmental Protection Agency (Ohio EPA), Division of Solid and Infectious Waste Management (DSIWM), Central District Office (CDO) received a document titled "Statistical Analysis Program for Ground-Water Quality Monitoring - Franklin County Sanitary Landfill," for the licensed Franklin County Landfill Facility (FCLF), in Franklin County. The document was submitted by Eagon & Associates, on your behalf, and contains the ground water statistical program revisions.

According to the document, some outliers are proposed for inclusion as background data by the FCLF. Pursuant to Ohio Administrative Code 3745-27-10(C)(7)(g), background data can only be added in blocks of data resulting from the analysis of four or more statistically independent samples after the data have been statistically compared to current background data and no statistical differences are detected, unless another method is deemed acceptable by the director. Ohio EPA, Division of Drinking and Ground Waters has reviewed the proposal using both DUMPStat and Sanitas statistics programs and concurs that this data can be added to the background database. Therefore, pursuant to OAC 3745-27-10(C)(7)(g), the Solid Waste Authority of Central Ohio is authorized to add those outliers identified in the statistical plan to the background database for the licensed FCLF.

The document also contained a proposal to incorporate some previously determined statistically elevated results into the background database. Ohio EPA, Division of Drinking and Ground Waters has also reviewed this proposal, and concurs that this data can also be added to the background database for the licensed FCLF.

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director
