Effective Date: October 26, 2016
Expiration Date: October 25, 2021

Public notice is hereby given that the Ohio Environmental Protection Agency (Ohio EPA)-Division of Surface Water (DSW) has issued a final general Permit to Install (PTI) permit for the land application of hydro-demolition wastewater in the state of Ohio.

Applicants under this permit include contractors of the Ohio Department of Transportation that propose to land apply wastewater produced during the hydro-demolition of concrete bridge decks. This permit covers hydro-demolition projects in which up to 2,000 linear feet of bridge deck may be restored. Interested parties that will be contacted include major municipalities, county engineers, statewide environmental groups, business and trade associations, consultants, OEPA divisions and district offices, and other known interested parties.

The hydro-demolition general permit is intended to cover the land application of hydro-demolition wastewater to state of Ohio rights-of-way. This general permit is not proposed to be available to hydro-demolition projects which discharge to waters of the State.

Copies of the final general PTI and the associated fact sheet and documentation can be obtained on the Ohio EPA-DSW web page at:
