Re: Availability of rules for comment, Storm Water Program Small MS4s

Dear Interested Parties:

The Division of Surface Water (DSW) is providing interested parties opportunity to review and comment on the following rules in Ohio Administrative Code (OAC) Chapter 3745-39:

Rule #	Rule Title	Draft Action
3745-39-01	Applicability of rules of procedure and definitions.	Amend
3745-39-02	Objectives of Ohio EPA storm water management program for small MS4s.	No Change
3745-39-03	Ohio EPA NPDES requirements for small MS4s.	No Change

The Agency is considering minor updates and no changes to three rules addressing the Storm Water permitting program for small municipal separate storm sewer systems. Please see the related fact sheet for additional information and the draft rules for specific language revisions. In addition to the draft rule amendments, Ohio EPA is also seeking comments and feedback on the draft Common Sense Initiative (CSI) Business Impact Analysis Form, which is being released with these rules for review.

The draft rules, the CSI form and supporting documents are available electronically for review at: <http://epa.ohio.gov/dsw/dswrules.aspx>. We request that you provide us with any comments you may have on the changes that have been recommended by April 15, 2015. Please submit your comments or suggestions in one of the following manners.
