RE: Dewatering Work Plan Conditional Approval

Dear Mr. Vandersall:

On January 7, 2008, Ohio EPA received Republic Services of Ohio, LLC's (Republic) Relief Well Installation Work Plan (Work Plan) which was submitted to fulfill the requirements of Order No. 2 of the December 31, 2007 Director's Final Findings and Orders. The Plan details the techniques and schedule for the installation of four large diameter vertical relief wells designed to remove high volumes of liquid within the landfill.

Based upon Ohio EPA's review of the January 7, 2008 Work Plan, Ohio EPA hereby approves the Work Plan with the following condition:

Condition 1:

On Page 2, Section 2.2.1, the Work Plan states, "The OEPA has expressed a desire to use a continuous pipe casing and avoid telescoped casing." This statement is inaccurate and needs to be removed. Through follow up conversations and a review of meeting notes, Ohio EPA could not confirm that any of its participants expressed a desire to avoid telescoped casing. Please remove the statement from the January 7, 2008 Work Plan.

Please resubmit the affected pages of the January 7, 2008 Work Plan demonstrating that the above referenced condition has been met within 5 business days after receipt of

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director
