**RE: COUNTYWIDE LANDFILL
STARK COUNTY
CELL 8B CERTIFICATION
CONCURRENCE**

Mr. Todd Hamilton, P.E.
Republic Waste Services of Ohio
Countywide RDF
3619 Gracemont Street, SW
East Sparta, OH 44626

Dear Mr. Hamilton:

On September 25, 2007, Ohio EPA received the "Cell 8B Structural Fill Construction Documentation Report" dated September 22, 2007. On September 26, 2007, Ohio EPA received the "Cell 8B Composite Liner Construction Documentation Report" dated September 25, 2007. On October 9, 2007, Ohio EPA received an electronic copy of "Addendum 1, Report on Cell 8B Leachate Collection System Construction" dated October 8, 2007. On November 13, 2007, Ohio EPA received "Cell 8A/8B Recompacted Clay (RCC) Separation Berm Construction Documentation Report" dated November 12, 2007. The reports were prepared by Golder and Associates on behalf of Countywide Recycling and Disposal Facility (Countywide RDF), which is owned and operated by Republic Services of Ohio II, LLC and located in Stark County.

The certification reports document the construction of Cell 8B in accordance with the approved permit to install (PTI) and construction of the separation berm between Cells 8A and 8B as approved on October 29, 2007. In addition, the certification reports request approval of two alterations.

A review of the documents has been completed and the certification reports indicate that Cell 8B and the 8A/8B separation berm were constructed in compliance with the approved PTI, the approved separation berm construction design, subsequent approved alterations, and the alterations requested in the certification report. Therefore, Ohio EPA concurs with construction of Cell 8B and Cell 8A/8B separation berm. Waste placement in Cell 8B may commence upon receipt of this letter.

If you have any questions, please contact me at (330) 963-1244.

Sincerely,

Karen J. Naples
Environmental Specialist
Division of Solid and Infectious Waste Management
