Ohio EPA Settles with Cuyahoga County Company for Hazardous Waste Violations

Hukill Chemical Corporation has agreed to pay a \$29,960 penalty to settle hazardous waste violations at its facility located at 7013 Krick Road in Bedford. The company has addressed the violations and now operates in compliance with Ohio's hazardous waste regulations.

Following an October 27, 2010, complaint investigation and facility inspection, Ohio EPA cited Hukill Chemical for unlawfully storing hazardous waste in excess of the quantity authorized in its permit. The company is authorized to store a maximum 68,695 gallons per day of hazardous waste in containers. Ohio EPA determined the company exceeded the container storage capacity on at least 35 days. The company also failed to keep a current written operating record at the facility.

Hukill is a permitted hazardous waste treatment and storage facility and a large quantity generator of hazardous waste. The company specializes in solvent recovery, hazardous and non-hazardous waste disposal, and hydrofluoric acid re-concentrating.

The [settlement](#) includes \$23,968 to Ohio's hazardous waste cleanup fund and \$5,992 to [Ohio EPA's Clean Diesel School Bus Fund](#).
