

## **Commonly Asked Questions for Contact Hours and Certification Renewal Applications**

1. Do I have to submit my renewal online for a license expiring December 31, 2019?
2. When can I submit my renewal application?
3. What do the columns Hours Applied and Hours Available mean?
4. I want to renew online, but I do not see all my contact hours listed. Why aren't they there?
5. I'd like to add my contact hours to my account that training providers have not uploaded, but I do not see the renew button next to my certification.
6. When I try to look up a course I get an error. What am I doing wrong?
7. When I attempt to add a course, I cannot find the correct course date in the drop-down menu. What do I do?
8. I noticed the Montana State University Courses are no longer on the list of approved water and wastewater courses. Can I still complete some/all of these courses and use them on my Renewal?
9. Is it okay to claim partial credit for a course?
10. How and when will I know if I am being audited?
11. The renewal application asks us to add the course approval number; how do I find an approval number?
12. How do I know if a course is approved for water or wastewater?
13. My certificate will expire December 31<sup>st</sup>. I hear I am supposed to have half of my contact hours in "OM" Operations and Maintenance. Is this true? How do I know I am taking the right courses?
14. My certificate will expire December 31<sup>st</sup> of this year. I took course B407, LockOut/TagOut last year and again this year. Can I use the course twice for my renewal?
15. What if I don't have enough contact hours by my expiration date in December?
16. If I take a class and it's approved for eight hours for both water and wastewater, can I put eight hours towards my water certificate and eight hours towards my wastewater certificate?
17. How many contact hours do I need?
18. How do I know how many contact hours I have completed? Who has a record of this information?

19. If I have a Class II Water Supply certificate that I am supposed to renew in December 2014 and I pass the Class III exam in November 2014, can I use the contact hours I earned before I passed the exam to renew my Class III renewal in 2016?
20. How many contact hours are given for 1.0 Continuing Education Unit (CEU) of credit? Are all CEU approved courses approved for contact hours too?
21. I am having a hard time getting my contact hours. Is there an easy way for me to get training at home?
22. I am an instructor who taught an approved course for a training provider. Can I take that course approval number and go teach this course any place I want? Can I teach it for another training provider?
23. I am renewing two certificates this year. Can I write one check for both renewals?
24. I am a current member of a professional Water/Wastewater organization. I heard I can use this membership for 1.0 contact hour on my renewal. Is this true?
25. I have taken a course that is not already approved and would like to obtain credit for it. How do I obtain approval for the course?
26. I am the Operator of Record and I renew this year. It is nearing December 31<sup>st</sup> and I do not have a valid renewal card in hand.
27. I renewed online but I have not received my renewal card in the mail.

**1. Do I have to submit my renewal online for a license expiring December 31, 2018?**

Yes. Online renewals will be required starting with the 2018 renewals.

**2. When can I submit my renewal application?**

Renewal applications may be submitted beginning August 1<sup>st</sup> of the renewal year. If your expiration date is December 31, 2021, you could submit a renewal application beginning August 1, 2021.

**3. In the eBusiness Center, what do the columns Hours Applied and Hours Available mean?**

The hours applied column indicates the number of hours from any course that you have submitted in a past renewal application. The hours available column indicates that you have not submitted the hours indicated on a past renewal application. The hours available column does not necessarily mean the hours will be available on your current or upcoming renewal application. Ensure you verify that the course is within the proper date range and is approved for the appropriate certification.

**4. I want to renew online, but I do not see all my contact hours listed. Why aren't they there?**

During the transition of renewals into the eBusiness Center, the training providers were not required to upload attendance. Our rules now reflect that training providers are required to upload attendance within 60 days of the course taking place; however, if your courses are not showing up in the eBusiness Center, then you can either contact the training provider or follow the instructions listed on this [link](#) to add the courses.

**5. I'd like to add my contact hours to my account that training providers have not uploaded, but I do not see the [renew](#) button next to my certification.**

You must wait until after August 1<sup>st</sup> of the year you are due to renew prior to accessing the renewal application. After this date, you can add all approved courses that training providers have not uploaded.

**6. When I try to look up a course I get an error. What am I doing wrong?**

Make sure that you are entering the course approval number in the appropriate format: i.e. OEPA-B1234567-OM. You must enter the entire approval number. If you still cannot find the approval number, contact the training provider to ensure the approval number is correct.

**7. When I attempt to add a course I cannot find the correct course date in the drop down menu. What do I do?**

Please contact the training provider directly and ensure the training provider has properly informed Ohio EPA about the training date. Training providers are required to schedule course dates within 30 days of the course completion date. If the training provider has not done so, the training event is not approved even if the course is an approved course. Do not add a course with the incorrect course date. This could be considered falsification.

**8. I noticed the Montana State University Courses are no longer on the list of approved water and wastewater courses. Can I still complete some/all of these courses and use them on my Renewal?**

No. As of January 1, 2014, Ohio EPA will no longer accept Montana State University CD-ROM or Online courses for contact hour credit for use on any certification renewal. Advances in technology and the variation of software on Personal Computers (PCs) are causing issues for many operators attempting to complete these courses and print logbooks or certificates. These courses are more than 10 years old and Montana State University is no longer offering technical support for these discs or for the online versions of these courses.

**9. Is it okay to claim partial credit for a course? (Course "S559804" is approved for 12 contact hours. The course was divided into four, 3-hour segments. I attended one of the 3-hour segments, can I claim 3 contact hours?)**

No, Ohio EPA does not grant partial credit for approved courses. You must attend the entire time to use that course approval number and any contact hours from the course.

**10. How and when will I know if I am being audited?**

When you renew online you will not know if your submittal will be audited. Ohio EPA will randomly review a portion of the eBusiness Center renewals and ensure that the copies of certificates of completion, transcripts, etc. are accurate and complete. If a training provider uploads your attendance, you do not need to attach a certificate.

**11. The renewal application asks us to add the course approval number; how do I find an approval number?**

In order to obtain a course approval number, contact the training provider directly, or check our Web site: <http://epa.ohio.gov/ddagw/opcert.aspx> under the Operator tab and then the Renewal subtab. There are separate lists maintained for those courses approved for water contact hours and wastewater contact hours.

**12. How do I know if a course is approved for water or wastewater?**

For courses beginning with "OEPA":  
"D" prefix is approved for water.  
"S" prefix is approved for wastewater.  
"B" prefix is approved for both water and wastewater.

**13. My certificate will expire December 31<sup>st</sup>. I hear I am supposed to have half of my contact hours in "OM" Operations and Maintenance. Is this true? How do I know I am taking the right courses?**

**At least half** of an operator's contact hours must be those courses directly related to operations and maintenance (OM) of a facility. More than half, or all "OM" is also acceptable. There is no minimum requirement for "X" contact hours. The course approval number states the course's designation as Operations and Maintenance "OM" (OEPA-D265987-**OM**) or Other "X" (OEPA-D265988-**X**).

**14. My certificate will expire December 31<sup>st</sup> of this year. I took course OEPA-B407-X, LockOut/TagOut last year and again this year. Can I use the course twice for my renewal?**

No, you may not use a course twice on the same renewal form; however, if you have taken a course twice within the same renewal period and you have two different certifications, you may use the course once for each certification.

**15. What if I don't have enough contact hours by my expiration date in December?**

You have a six month grace period to complete contact hours; however, **your certification is considered expired and you should not be acting as the operator of record.** Renewal applications without contact hours cannot be submitted through the eBusiness Center. A \$20 late penalty applies to ALL renewal applications submitted after January 30th.

**16. If I take a class and it's approved for eight hours for both water and wastewater, can I put eight hours towards my water certificate and eight hours towards my wastewater certificate?**

No, the class counts for a total of eight hours; however, you can split the eight hours between certificates. In order to do this you must indicate this when filling out the renewal application in the eBusiness Center. You will only enter the number of hours you wish to use under the "Hours Applied" column.

**17. How many contact hours do I need?**

<b>Water and Wastewater Certificate Level</b>	<b>Contact Hours Required for Renewal</b>
Limited Class A Class A	8
Class I ALL Distribution Certificates ALL Collection Certificates	12
Class II Class III Class IV	24

**Please note:** 50% of the hours must be Operation and Maintenance (OM) hours. Half of the hours may, but are not required to be, Other (X) hours. Operators who hold more than one active certificate shall have the number of contact hours required for the renewal of each certificate reduced by 25%. All 8 hour requirements will be reduced to 6 hours, all 12 hour requirements will be reduced to 9 hours, and all 24 hour requirements will be reduced to 18 hours. The eBusiness Center renewal application will account for this reduction should you have 2 or more active certificates in the system.

**18. How do I know how many contact hours I have completed? Who has a record of this information?**

Ohio EPA does not maintain earned contact hour records for individual operators. Ohio EPA does not enter training records into the eBusiness Center. It is the responsibility of the certified operator to maintain all course attendance materials and earned contact hour records. Training providers are required to maintain attendance records for all of their training events for a period of three years

[Return to list](#)

from the date of training. If you need a copy of completion certificates or other attendance verification, contact the training provider directly. Training providers will be uploading attendance into the eBusiness Center, but the eBusiness center is not meant to replace the operator or training provider's record keeping.

- 19. If I have a Class II Water Supply certificate that I am supposed to renew in December 2019 and I pass the Class III exam in November 2019, can I use the contact hours I earned before I passed the exam to renew my Class III renewal in 2016?**

No. Contact hours earned for previous certificates may not be credited towards future certificates. Only contact hours earned during the year of expiration and one-year prior, will count.

- For 2018 renewals, only courses taken in 2017 and 2018 will count; contact hours taken in 2016 will not count.
- For 2019 renewals, only courses taken in 2018 and 2019 will count; contact hours taken in 2017 will not count.
- For 2020 renewals, only courses taken in 2019 and 2020 will count; contact hours taken in 2018 will not count.

Contact hours will only be credited toward the certificate(s) held at the time of course completion.

- 20. How many contact hours are given for 1.0 Continuing Education Unit (CEU) of credit? Are all CEU approved courses approved for contact hours too?**

One CEU credit *may equal a maximum* of ten contact hours. CEU courses are *not always approved* for contact hours. Training providers must submit them for approval. Contact the training provider before attending courses in question to be sure they have been approved by Ohio EPA for contact hour credit.

- 21. I am having a hard time getting my contact hours. Is there an easy way for me to get training at home?**

Yes. We post a list of training providers offering correspondence and on-line courses on our Web site at: [http://epa.ohio.gov/Portals/28/documents/opcert/Internet\\_and\\_Correspondence\\_training.pdf](http://epa.ohio.gov/Portals/28/documents/opcert/Internet_and_Correspondence_training.pdf). Some of these providers require a small fee and others are free. Contact the training provider directly for course cost and registration information. This list is not a complete list.

- 22. I am an instructor who taught an approved course for a training provider. Can I take that course approval number and go teach this course any place I want? Can I teach it for another training provider?**

No. Course approval numbers are only issued to the training provider that applies for the course. Course approval numbers are NOT issued to any instructor, at all. Approval numbers are not for use by the instructor's employer, unless the instructor's employer is the training provider who applied for course approval. Instructors who wish to give their same course again at a different place, for a different training provider, can only do so if the new training provider has applied for and been approved to use the course. The training provider will not receive the same approval number for the course.

**23. I am renewing two certificates this year. Can I write one check for both renewals?**

Yes. You must include **both** Revenue ID numbers on the check in order to receive payment credit for both renewal fees. If you are including any late renewal fees in that check amount, please include a note attached to the check clearly indicating which Revenue ID number(s) the additional fees should go to. If you are paying online, you may pay both with one transaction. To do so, please utilize the “Pay Ohio EPA Fees Online” service on the eBusiness Center home page.

**24. I am a current member of a professional Water/Wastewater organization. I heard I can use this membership for 1.0 contact hour on my renewal. Is this true?**

Yes. Current members of a National or Ohio organization such as WEF, AWWA, OAWWA, OWEA, and ORWA may add a copy of their Personal, Individual Membership card for 1.0 “X” contact hour on their online renewal application. Credit **WILL NOT** be given for personal, individual Section Memberships. Credit **WILL NOT** be given for an Employer’s membership even if you work for that employer. To add the course online use the following approval number to attach a copy of your membership card: OEPA-B398593-X.

**25. I have taken a course that is not already approved and would like to obtain credit for it. How do I obtain approval for the course?**

Contact Hour Course Applications are time sensitive and must be received within 30 days of course completion. If the training provider is not submitting a course approval application then the operator can submit an application. If you want to submit a course approval application, please follow the following instructions: [http://epa.ohio.gov/Portals/28/documents/opcert/Operators\\_Applying\\_for\\_Course.pdf](http://epa.ohio.gov/Portals/28/documents/opcert/Operators_Applying_for_Course.pdf).

**26. I am the Operator of Record and I renew this year. It is nearing December 31st and I do not have a valid renewal card in hand.**

All renewal applications are due on November 30th to allow Ohio EPA time to process the 5,000+ applications that arrive each year. In order to fulfill your requirements as the Operator of Record, you should submit your completed renewal application in advance of this date. At a minimum, we must receive your completed certification renewal application through the eBusiness Center by December 31st of your renewal year. All certificates expire on January 1st. Operators whose certificates are not renewed by December 31st of their renewal year may NOT act as the Operator of Record until their application is processed and approved.

**27. I renewed online but I have not received my renewal card in the mail.**

All renewal cards are received by the operator by email and can also be found in the operator’s eBusiness Account. The email will be auto generated and sent to the email located in the Operator’s profile. There is no way to resend this email so make sure your email is up to date. If you miss the email you can still access the renewal card in the eBusiness Center account. The renewal card will be located to the right of the valid certificate, under the action column as a PDF.
