¹ Costs associated with correction of indoor plumbing issues are eligible in particular instances. Eligible indoor plumbing corrections must be necessary in order for an on-site system to receive health district approval and must be itemized on the health district’s inspection report. Contractors must submit an itemized bid to the local government agency for these specific items. The local government agency must include the itemized bid with all other contract documents submitted to Ohio EPA for review and approval following bid opening and prior to contract execution. The itemized invoice from the contractor listing the indoor plumbing work must be included with a payment request.

² NPDES permit fees are eligible for reimbursement only for the first occurrence after the disbursement of these funds.
Contract Bidding

• Informal bidding acceptable if single contract is under $50,000 but check with your county solicitor/prosecutor
  – LHDs (not homeowners) to obtain at least three bids & recommend using your county’s list of registered installers
  – Submit bid tally and successful bidder’s package to DEFA for approval prior to executing contract
  – Prefer that you bundle properties together under one contract when possible (e.g., 2 or 3 homeowners)
  – If single contract is over $50,000 have to follow ORC 307.86 for competitive bidding
Deadlines and Project Completion

- LHDs must sign and enter into WPCLF assistance agreements by no later than **May 31, 2016** to receive funding.

- Resolution and approvable model contract must be submitted before DEFA can prepare the WPCLF agreement for signature.

- LHDs will have **18 months** from date of signing WPCLF agreement to expend funds.
Payment Request Process

• Use WPCLF HSTS Payment Request Form - can submit by email
• Include contractor invoices and final inspection certification from LHD for installation work payment requests
• DEFA can pay for soil evaluation and system design work prior to actual installation work being completed – need invoices
• OWDA disburses funds to LHDs and then LHDs will render payment to the contractors
• Usually takes about 10 to 15 days for payments to be disbursed to LHDs if receive payment request by Thursday of a given week
• Be sure to complete LGA Payment Instruction Form and submit it to OWDA before making first payment request
Homeowner Eligibility Requirements

• Property must be occupied by the homeowner
• Rental properties, new-build homes, and homes advertised for sale are not eligible for the funding
• Homes being purchased via Land Installment Contracts per ORC Chapter 5313 are eligible for the funding
• Homeowners need to qualify for one of the three funding tiers as listed in Appendix G, Tables G-2 thru G-4 of the 2016 WPCLF Program Management Plan
• LHDs/counties need to conduct a documented verification of the homeowner’s household size and income using established processes for similar grant programs
Other Program Items

- NPDES permits for discharging systems – factor in time for obtaining permit, especially if non-MOU county
- ODH fact sheet “Responsibilities of a Household Sewage Treatment System Authorized Under a General NPDES Permit”

- Recordkeeping requirements – documentation related to the HSTS funding must be retained by LHD for minimum of five years and in accordance with Ohio public records law
- Quarterly reports must be submitted to DEFA on status of completed projects
