

3745-515-10

Permit to install.

(A) Prior to acceptance of TENORM that contains or is contaminated with radium-226, radium-228, or any combination of radium-226 and radium-228 at concentrations equal to or greater than five picocuries per gram above natural background, the owner or operator of a solid waste transfer facility or sanitary landfill facility that holds any authorization for the facility required by rules adopted by the director of health under section 3748.04 of the Revised Code shall obtain a permit in accordance with this chapter and Chapter 3745-27 or 3745-29 of the Administrative Code, as applicable.

(B) Notwithstanding the requirements contained in paragraph (A) of this rule, the owner or operator of a solid waste transfer facility or sanitary landfill facility shall obtain a permit to install prior to any modification of the facility as that term is defined in rule 3745-27-02 of the Administrative Code, and shall demonstrate that the criteria in rule 3745-27-07 or 3745-29-07 of the Administrative Code are met, as applicable, including complying with any relevant paragraphs of rule 3745-27-08 or 3745-29-08 of the Administrative Code, as applicable.
