

3745-515-15

Notification of acceptance for disposal or transfer of drilling operation material.

Except as prohibited by rule 3745-515-05 of the Administrative Code, the owner or operator of a solid waste transfer facility or sanitary landfill facility may accept for transfer or disposal drilling operation material in accordance with this chapter and upon obtaining any necessary authorizations required by rules adopted by the director of health under section 3748.04 of the Revised Code and as follows:

- (A) If the owner or operator of a solid waste transfer facility or sanitary landfill facility licensed pursuant to section 3734.05 of the Revised Code is not accepting for transfer or disposal drilling operation material prior to the effective date of this rule, the owner or operator shall notify Ohio EPA on forms prescribed by the director, prior to receipt or acceptance, of the intent to accept for disposal or transfer drilling operation material.
- (B) If the owner or operator of a solid waste transfer facility or sanitary landfill facility licensed pursuant to section 3734.05 of the Revised Code is accepting for transfer or disposal drilling operation material prior to the effective date of this rule, the owner or operator shall notify Ohio EPA on forms prescribed by the director not later than thirty days after the effective date of this rule of the intent to continue to accept for transfer or disposal drilling operation material.
- (C) Notwithstanding the notification requirements contained in paragraphs (A) and (B) of this rule, the owner or operator of a solid waste transfer facility or sanitary landfill facility shall not accept TENORM that contains or is contaminated with radium-226, radium-228, or any combination of radium-226 and radium-228 at concentrations equal to or greater than five picocuries per gram above natural background until the director approves any required modification to the facility permit to install as required by rule 3745-515-10 of the Administrative Code.
