

Facility Location Information (Continued)

Composting Method (Check all that apply):

- Windrow In Vessel Aerated Static Pile Static Pile Vermicomposting
 Other Approved Method (Please specify): _____

Compostable Materials Conditioning Method (Check all that apply):

- Acidic Anaerobic Fermentation
 Other Approved Method (Please specify): _____

If using other methods, please contact the composting program at (614) 644-2621 to obtain approval for the method.

Facility Owner / Business Information

If different from applicant. Business Name is the name of the sole proprietorship, corporation, business or governmental entity that owns the facility. All Business Owners must be included on this application. Please make additional entries on a separate piece of paper for each Business Owner.

Business Name: _____ Business Phone Number: _____
Mailing Address: _____
City: _____ State/Province: _____ Country: USA or: _____ Zip: _____
Contact Person: _____ Phone Number: _____
Contact Email: _____

Facility Operator Information

If different from facility owner. Operator Name is the name of the sole proprietorship, corporation, business or governmental entity that operates the facility.

Operator Name: _____ Phone Number: _____
Mailing Address: _____
City: _____ State/Province: _____ Country: USA or: _____ Zip: _____
Email: _____
Contact Person at Facility Location: _____ Contact Phone Number: _____
Contact Email: _____

Property Owner Information

If different from business owner. Property Owner Name is the name of the sole proprietorship, corporation, business or governmental entity that operates the facility. Please attach additional entries on a separate piece of paper if needed.

Select Owner Type: Corporation Government LLC Individual Partnership Sole Proprietorship
Name: _____ Phone Number: _____
Address: _____
City: _____ State/Province: _____ Country: USA or: _____ Zip: _____
Parcel Number(s): _____

Design Capacity Estimate

The design capacity is the maximum capacity of materials that may be appropriately managed in the materials placement area, based upon the design, construction, equipment, composting method, and planned operational practices at the facility.

A. Maximum capacity for receiving and storage of feedstocks, bulking agents, and additives authorized by rule	yd ³	D. If applicable, maximum capacity for storage of alternative materials	yd ³
B. Maximum capacity for composting and materials processing area	yd ³	E. If applicable, maximum capacity for composting and alternative materials processing area	yd ³
C. Maximum capacity of compost product storage area	yd ³	F. Total design capacity of materials placement area (A+B+C+D+E)	yd ³

Operational Capacity Estimate (Optional)

The operational capacity is calculated when the owner or operator intends to manage an amount of materials requiring less capacity than the designed capacity. The operational capacity may be less than or equal to the design capacity, but shall never exceed the design capacity.

IMPORTANT: Only estimate the operational capacity if different from the design capacity.

A. Operational capacity for receiving and storage of feedstocks, bulking agents, and additives authorized by rule	yd ³	D. If applicable, operational capacity for storage of alternative materials	yd ³
B. Operational capacity for composting and materials processing area	yd ³	E. If applicable, operational capacity for composting and alternative materials processing area	yd ³
C. Operational capacity of compost product storage area	yd ³	F. Total operational capacity of materials placement area (A+B+C+D+E)	yd ³

Class II Facility Closure Cost Estimate

IMPORTANT: This section determines the money amount required for financial assurance based on the design capacity or operational capacity, as applicable. Any future changes in capacity must be documented by submission of an amended registration with a recalculated closure cost estimate and updated financial assurance documentation.

A. Capacity for receiving and storage of feedstocks, bulking agents, and additives authorized by rule	yd ³	F. If applicable, capacity for receiving and storage of alternative materials	yd ³
B. Capacity for composting and materials processing	yd ³	G. If applicable, capacity for composting and alternative materials processing	yd ³
C. Maximum capacity of materials placement area (A+B) (Does not include compost product storage areas)	yd ³	H. Maximum capacity of materials placement area for alternative materials (F+G)	yd ³
D. Closure cost multiplier	\$2.50 per yd ³	I. Closure cost multiplier	\$8.00 per yd ³
E. Closure cost estimate (C x D)	\$	J. Closure cost estimate (H x I)	\$

Total cost estimate (E+J) \$

Note: Financial assurance is not required for estimates of \$5,500 and less. If the closure cost estimate exceeds \$5,500, an executed financial assurance instrument must be submitted with this application.

Class II Facility Allowed Maximum Daily Waste Receipt (AMDWR)

The AMDWR limits the total tonnage of feedstocks, bulking agents, additives and alternative materials that can be received at a facility on any single day. The AMDWR selected shall match the AMDWR in the license.

AMDWR in tons. Please select one:

Plan View Drawing

The Plan View Drawing verifies compliance with siting criteria and defines where materials can be placed at the facility.

The plan view drawing must be submitted showing the following items inside the facility boundaries and within 500 feet of the proposed facility boundary and using a scale of one inch equals no greater than 100 feet:

- The property lines of all land owned or leased for the composting facility.
- The boundary lines for the composting facility.
- Public roads, railroads, and structures.
- Existing topography showing contours, streams, wetlands, lakes, springs, and other surface waters of the state.
- The north arrow.
- Boundary lines for the materials placement area based on the design capacity, including the area for each of the following: composting and materials processing; receiving and storage of feedstocks, bulking agents, or additives; storage and processing of authorized alternative materials; storage of compost product. For facilities with an operational capacity different than the design capacity the boundary lines for the same items based on the operational capacity.
- Existing occupied dwellings.
- Any leachate management structure.
- The limits of the one-hundred-year floodplain.
- National park or national recreation areas, candidate areas for potential inclusion into the national park system, and any state park or established state park purchase areas.
- Any state or Ohio history connection nature preserves, state wildlife areas and national wildlife refuges, national and state wild scenic and recreational rivers, special interest areas and research natural areas in the Wayne national forest, state resource waters, coldwater habitats, exceptional warmwater habitats.
- Existing public water supply wells, developed springs, or private potable water supply wells.
- Existing drainage sinkholes or agricultural drainage wells.
- The direction of the downward slopes and drainage for the materials placement area.

Letter(s) of Intent

Copies of the letters of intent and return receipts must be included in this application.

Letter(s) of intent shall be sent by certified mail or any other form of mail accompanied by a receipt requested to the following individual(s) or organization(s):

- The governments of the general purpose political subdivisions where the facility is proposed to be located including but not limited to local health departments, county commissioners, legislative authority of a municipal corporation, or the board of township trustees.
- The single or joint county solid waste management district or districts or regional solid waste management authority or authorities where the facility is proposed to be located.
- The owner or lessee of any easement or right of way bordering or within the proposed facility boundaries which may be affected by the proposed solid waste facility.
- The local zoning authority having jurisdiction.
- The park system administrator, if any part of the proposed facility is to be located within or will share the park boundary.
- The conservancy district, if any part of the proposed facility is to be located within or will share the conservancy district boundary.
- The fire department having responsibility for providing fire control services where the proposed facility is to be located.

Letters of intent need to communicate to the recipients that the Applicant plans to establish a composting facility at a specified location and describe the property and facility boundaries.

Registration Certification

The owner or operator signing a document shall be one of the following:

1. In the case of a corporation, a principal executive officer of at least the level of vice president or a duly authorized representative, if such representative is responsible for the overall operation of the facility.
2. In the case of a partnership, a general partner.
3. In the case of a limited liability company, a manager, member, or other duly authorized representative of the limited liability company, if such representative is responsible for the overall operation of the facility.
4. In the case of a sole proprietorship, the owner.
5. In the case of a municipal, state, federal, or other governmental facility, the principal executive officer, the ranking elected official or other duly authorized employee.

By signing this document, I hereby certify that all statements and all assertions of fact made in the document are true, accurate, include all required information, and comply fully with applicable rules.
