2015 Ohio EPA Sewer and Water Rate Survey

Introduction

The Sewer and Water Rate Survey's central purpose is to collect and publish Ohio residential sewer and water rates. 2015 rates were collected for the twenty-ninth annual Sewer and Water Rate Survey, conducted by the Ohio Environmental Protection Agency. Ohio EPA sent survey questionnaires to 631 municipalities and districts and received 481 responses (76%).

The 2015 Sewer and Water Rate Survey also gathered information regarding the following:

- Sewer Tap-in Fees
- Water Tap-in Fees

Historic survey data and sewer and water rates for over 500 cities, villages and districts during the 1987-2015 periods are available online at Ohio EPA's Office of Fiscal Administration web page located at:

<http://epa.ohio.gov/DivisionsandOffices/FiscalAdministration.aspx>.

Contact economic.analysis@epa.ohio.gov to receive a copy of the survey by e-mail. Or call Ohio EPA, Office of Fiscal Administration, Economic Analysis Unit at 614-644-3760 to receive a hard copy or request additional information.

2015 Ohio EPA Sewer and Water Rate Survey

Sewer and Water Rate Calculations

Sewer and water charges usually depend on consumption measured in gallons or cubic feet, and are billed monthly, bimonthly or quarterly. In order to standardize sewer and water rates across Ohio and to allow for comparisons among systems, the 2015 Sewer and Water Rate Survey presents rates calculated for an assumed level of consumption.

Annual rates were calculated for residential customers within municipal limits, assuming that a household consists of three (3) people individually consuming 85 gallons of water each day. Community annual sewer and water rate calculations assumed one of the following as the average water consumption per household:

- 7,756 gallons per month (1,037 cubic feet per month)
- 15,512 gallons bi-monthly (2,074 cubic feet bi-monthly)
- 23,268 gallons per quarter (3,111 cubic feet per quarter)

The rates in Appendices 2 and 3 include charges levied for direct use of sewer and water systems. Charges unrelated to sewer and water use, such as income and property taxes, have not been included in rate calculations.

Privately owned sewer and water systems may be funded differently than some public systems. As a result, the sewer and water rates charged by privately owned companies may be higher than some public systems.

Actual sewer and water charges for individual households will be higher (or lower) than those listed in Appendices 2 and 3 for those households with average, metered water use of more or less than 7,756 gallons per month.

2015 Ohio EPA Sewer and Water Rate Survey

Sewer Rates

The 2015 average annual residential sewer rate in Ohio was \$655, approximately 4.4% increase over the 2014 rates. Table 1 shows annual sewer rate averages for 1989 through 2015, along with the percentage change in average rates and the consumer price index (CPI-U: Midwest urban prices for all items). Figure 1 displays average annual sewer rate data and a trend line adjusting the base year (1989) average sewer rate for inflation. Figure 2 displays the range of sewer rates charged by communities in 2015.

Table 1: Annual Average Residential Sewer Rate and CPI Change 1989-2015

Year	Average Rate	% Rate Increase	CPI
1989	\$217	8.5%	4.7%
1990	\$232	6.9%	4.9%

Water Rates

The 2015 average annual residential water rate in Ohio was \$592, approximately 3.5% increase over the 2014 rates. Table 2 displays annual water rate data for 1989 through 2015, along with the percentage change in average rates and the consumer price index (CPI-U: Midwest urban prices for all items). Figure 3 displays average annual water rate data and a trend line adjusting the base year (1989) average water rate for inflation. Figure 4 displays the range of water rates charged by communities in 2015.

Table 2: Annual Average Residential Water Rate and CPI Change 1989-2015

Year	Average Rate	% Rate Increase	CPI
1989	\$188	3.9%	4.7%
1990	\$195	3.7%	4.9%
1991	\$210	7.7%	3.9%
1992	\$225	7.1%	2.8%

Figure 4: Water Rate Distribution in 2015

Sewer and Water Rate Increases

In 2015, of the 418 sewer systems that completed the survey, 170, or approximately 40% of the survey population, reported rate increases.

In 2015, of the 420 water systems that completed the survey, 184, or approximately 44% of the survey population, reported rate increases.

Tap-in Fees

Appendix 4 contains the sewer and water tap-in fees submitted by the communities for residential customers inside and outside their municipal limits. These fees are presented as they were reported on the questionnaires, without correction or interpretation. As a result, they may not be comparable across communities.

For example, some of the reported tap-in fees included labor and installation charges. Whereas other reported tap-in fees included only an administrative fee with the customer being held responsible for hiring their own private contractor to install the lines and taps.
