What is the history of the hazardous waste program?

The Resource Conservation and Recovery Act (RCRA), an amendment to the Solid Waste Disposal Act, was passed in 1976. The main reason for the amendment was to address the growing volume of municipal and industrial solid waste generated across the United States. A few goals established by RCRA include: to protect human health and the environment from potential hazards of waste disposal, to reduce the amount of waste generated, and to ensure that waste produced are managed in an environmentally sound manner.

When RCRA was written, U.S. Congress' intent was for the states to assume primary responsibility for implementing the hazardous waste regulations with oversight from the United States Environmental Protection Agency (U.S. EPA). U.S. EPA must approve each state as an authorized state. To become an authorized state, each must demonstrate that the state program is at least equivalent to and consistent with federal laws, provides adequate enforcement authority and provides availability of information similar to the federal program. Since 1989, the State of Ohio has been an authorized state by U.S. EPA for the majority of their hazardous waste program.

How can I become more involved?

All persons, including the applicant, may submit written comments relating to this draft action. Written comments or requests for a public meeting may be submitted before the end of

Draft Hazardous Waste Class 3 Permit Modification

the comment period to the address in the box on the front of the page. Ohio EPA will hold a public meeting if enough people request such a gathering. The agency may modify the proposed permit modification or take other action based on new information or public comments, so your opinion is important.

The comment period begins on February 4, 2021, and ends on April 2, 2021. Copies of the modified permit application pages and the draft permit are available for review by the public at the following locations:

Ohio EPA, Southwest District Office
401 East Fifth Street
Dayton, Ohio, 45402-2911
(937) 285-6075

Ohio EPA, Central Office, DERR
Lazarus Government Center
50 West Town St., Suite 700
Columbus, Ohio 43215
(614) 644-2924

A copy of the draft modified permit is available for review by the public at:

Dayton Metro Library –
Kettering-Moraine Branch
3496 Far Hills Ave
Dayton, OH 45429
(937) 463-2665

Please Note: As a precautionary response to COVID-19, Ohio EPA's offices and many libraries in the State of Ohio, at the time of draft issuance, are closed. These documents will be made available for public review upon reopening and these documents can be viewed anytime on Ohio EPA's website (see below), for additional accommodations or more information, please call Halee Smith with Ohio EPA (614) 441-0261.

The Ohio draft modified permit is available for review by the public online under the "What's New" tab at:

The Ohio draft modified permit is available for review by the public online under the "What's New" tab at:

<http://epa.ohio.gov/derr/>

The entire record for this draft action is available via Ohio EPA's eDocument portal:

<http://edocpub.epa.ohio.gov/publicportal/edoc/home.aspx>

Using the search function, search under the document type of "Permit" and then refine the search using the package number, which is "807".

After the close of the public comment period, Ohio EPA will, without prior hearing, issue a modified permit (or deny the request) in accordance with Chapter 3734 of the Ohio Revised Code (ORC). If Ohio EPA approves the application, taking into account public comments, a modified permit will be issued with terms and conditions as are necessary to ensure compliance with hazardous waste rules.

What does the facility do?

The facility is permitted to store ignitable, corrosive, and toxic hazardous wastes in containers in the Main Warehouse storage areas. The facility conducts 10-day transfer operations for hazardous waste at the facility. Nexeo also acts as a used oil transfer facility.

Ashland, LLC has been authorized to conduct corrective action at the facility.

What is the purpose of this permit modification?

This permit modification changes the facility's Part B Permit to reflect the ownership change

Draft Hazardous Waste Class 3 Permit Modification

from Nexeo Solutions, LLC to Univar Solutions USA, Inc.

Ashland, LLC will continue to conduct required, previously set, Corrective Actions at the facility.

What is the regulatory basis to support this permit renewal?

When applying for a Class 3 permit modification, an applicant is required by Ohio Administrative Code (OAC) Rule 3745-50-51(D) to submit the relevant informational requirements of OAC Rule 3745-50-43 (Part A application contents) and OAC Rule 3745-50-44 (Part B application contents). Univar Solutions USA, Inc. submitted the Class 3 modification application with the relevant required information on June 3, 2019. Ohio EPA has reviewed the application and had determined that the proposal complies with Ohio EPA rules. Accordingly, Ohio EPA is issuing a draft action indicating the Director's intention with respect to the issuance of a modified permit to Univar Solutions USA, Inc.

Who can I contact for more information?

For additional information, please contact George Nemore of the Southwest District Office at (937) 285-6075.
