ISSUANCE OF A DRAFT RENEWAL PERMIT

On April 30, 2020, Ohio EPA and US EPA issued a Draft Renewal Ohio Hazardous Waste Facility Installation and Operation Permit to Environmental Enterprises, Inc. (EEI), U.S. EPA Identification Number OHD 083 377 010, for the facility located at 4650 Spring Grove Ave., Cincinnati, Ohio 45232. EEI submitted a Renewal Permit Application on April 2, 2019. EEI operates a hazardous waste storage and treatment facility, no permanent disposal takes place on site. The purpose of this draft permit is to allow EEI to continue the following hazardous waste management activities: storage of hazardous waste in containers and tanks, treatment of hazardous waste in containers, tanks, and a miscellaneous unit (shredder).

To issue this draft permit, Ohio EPA determined that the Permit Application is complete and meets appropriate standards and that EEI has a history of compliance with relevant environmental laws and demonstrates sufficient reliability, expertise, and competency to operate a hazardous waste facility.

Currently, the State of Ohio is not authorized by US EPA to issue a permit for organic air emissions from hazardous waste storage units. US EPA has drafted a RCRA permit to address organic air emissions from hazardous waste storage units. US EPA's draft permit and the State of Ohio's draft permit have been issued concurrently and both share the same comment period. Regarding the federal portion of the draft permit, please submit comments to Jae Lee, US EPA, Region 5, Land and Chemicals Branch (LL-17J), 77 West Jackson Boulevard, Chicago, Illinois 60604, Jae Lee may also be reached by email at lee.jae@epa.gov or over phone at (800) 621-8431 ext. 63781.
